ABOUT US

China Oshen Group/OShen power boat factory is a professional manufacturers and exporters for varies high quality FRP/GRP boats, RIB boats, PVC boats, outboard engines. Our company is devoted to provide "safe, healthy, comfortable, durable and environment-friendly" boats to all customers. Our plant is located near the "capital of the hardware and tools"---Jinhua city, the industrial and commercial center of Mid-Zhejiang province. All our products are made of high-intensity polyester fabric grassroots and PVC materials imported from South Korea, coupled with the strict and rigorous process of scientific management. This ensure our products meet all the requirements and standards of the EU/CE certification, and we have achieved CE certification according to strict test regulations and standards.

In addition, to assure customers use our products with high confidence, we guarantee all products with a two-year warranty period. With the exquisite design and perfect handcraft, we make a perfect combination of fluid dynamics, aerodynamics and Ergonomics in our Streamline boats which are elegant, comfortable and durable.

Since her first establishing, our company persistently cherishes the principle of "Create demand, Lead the market. We make you think, we create you not think" and "Customer comes first, reputation follows next" and the business philosophy of "Quality products for customers, perfect service the market." As a result, we grows rapidly to become the industry leader for small sizing boats in China, and our products have been sold all over the world and have won high praise from all customers. If you find a good market, we provide you with our high quality products; if you have a new idea for the market, we divert your idea into market demand; if you have caught a big demand, we meet your demand at our most; if you need a genuiner OEM partner for your project, we are your first choice.
