

# RED LASER POINTER

【650nm, 50mw-100mw】

*THE LASER SHOP*

*Loving Laser*

LE is your best choice

## LER -1

### Mid-Open Black Red Laser Pointer

Specification :

- (1) Red laser pointer
- (2) Wavelength: 650nm
- (3) Battery: 2 XAAA.
- (4) Dimension :14x 160mm
- (5) **Output power: 50mw-200mw**
- (6) Transverse Mode: TEM<sub>00</sub>
- (7) Switch: Momentary switch
- (8) Expected Lifetime: > 8,000 hours
- (9) Body Material: Brass

Feature

Pen style, portable laser,  
Well tested and high quality red laser pointer  
Clearly visible in the dark  
Fixed focus, continuous output  
Using long lifetime chip, more than 8000hours

## LER-2

### Mid-Open 2in1 Red Laser Pointer

Specification :

- (1) **Red laser pointer with star cap**
- (2) Wavelength: 650nm
- (3) Battery: 2 XAAA.
- (4) Dimension :14x 160mm
- (5) Output power: 50mw-200mw
- (6) Transverse Mode: TEM<sub>00</sub>
- (7) Switch: Momentary switch
- (8) Expected Lifetime: > 8,000 hours
- (9) Body Material: Brass

Feature

- a) Pen style, portable
- b) With star effect cap
- c) Well tested and high quality red laser pointer
- d) Clearly visible in the dark
- e) Fixed focus, continuous output
- f) Using long lifetime chip, more than 8000hours

## LER-3

### Mini Red Laser Pointer w/starcap

#### Specification :

- (1) Red laser pointer with Star Top.
- (2) Wavelength: 650nm
- (3) Laser range: 300-1000 meters
- (4) Battery: 1\*AAA(1.5Volt).
- (5) Dimension :83X13mm
- (6) Output power: 5mw-50mw
- (7) Transverse Mode: TEM<sub>00</sub>
- (8) Switch: Momentary switch
- (9) Expected Lifetime: > 8,000 hours
- (10) Body Material: Brass

#### Feature

**Mini style, 1xAAA battery, with keychain option**

With 2 different tops for showing different effects

Well tested and high quality red laser pointer

Clearly visible in the dark

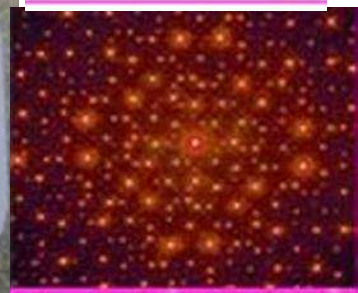

Fixed focus, continuous output

Using long lifetime chip, more than 8000hours

Size: 83\*13MM

5-50MW

laser pointer and laser star

# LER-4

## Red Laser Torch Burning

Specification:

- (1) Blue laser torch
- (2) Wavelength: 650nm
- (3) **Battery: 1\*18650**
- (4) **Output power: 100~200mw**
- (5) Transverse Mode: TEM<sub>00</sub>
- (6) Switch: Momentary Switch
- (7) Body Material: Brass
- (8) Size: 150mmX23mm

Feature

**Constant switch, Burning Match easy**

**Constant on/off switch**

**Adjustable focus and key switch**

Clearly visible in the dark

Using long lifetime chip, more than 8000hours

## LEP-1

### 1nd Red Laser Pointer for gift

#### Specification :

- (1) Red laser pointer
- (2) Wavelength: 650nm
- (3) Battery: 2 XAAA.
- (4) Dimension :12x 140mm
- (5) Output power: 50mw-200mw
- (6) Transverse Mode: TEM<sub>00</sub>
- (7) Switch: Momentary switch
- (8) Expected Lifetime: > 8,000 hours
- (9) Body Material: Brass

#### Pack information :

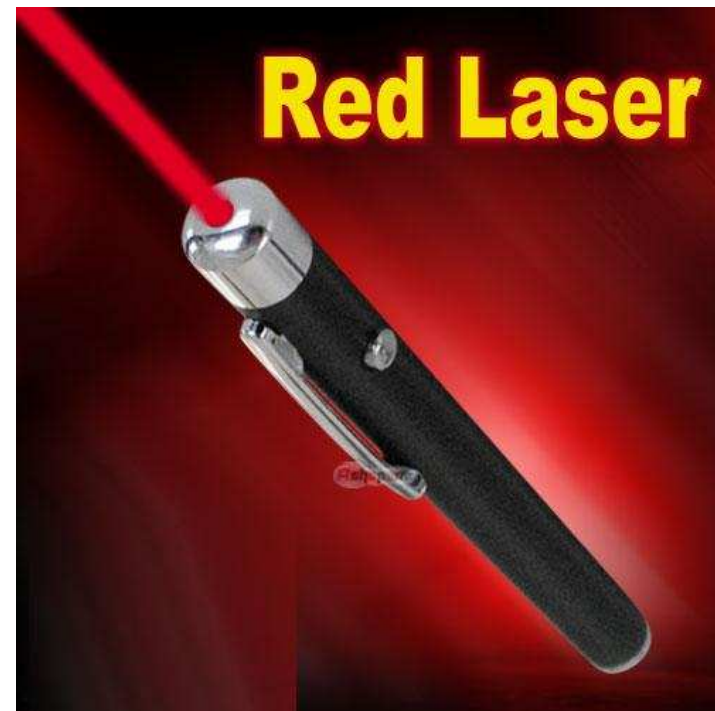

Qty : 200 pcs/carton

N.W:18kg

G.W:20kg

Carton Size: 43cmX39cmX36cm

**Products color :**  
**Black&Silver&Blue**

## LEP-2

### 2st Red Laser Pointer for gift

#### Specification:

Lightweight and handy, suitable for put in your pocket or handbags

Design with clip, can hold it in pockets or clip on notebooks

It's more convenience that use laser point to the target instead of hands

Perfect for teachers, students, engineers, doctors, managers and more

Laser light color: red

Output power: Max 5mw

Output wavelength: 650nm

Press button for ON / OFF

Powered by two AAA batteries(included)

Dimension: 1cm(Dia)\*14cm(L)(approx)

Color: black

#### Pack information :

Qty : 200 pcs/carton

N.W:18kg

G.W:20kg

Carton Size: 43cmX39cmX36cm
