

Tamprinter Printing Machinery Limited

Flat Screen Printing Machine

Address: 111 Guanlan Avenue, Longhua New District Shenzhen City Guangdong Province China

Telephone: 86-755-23148182

Email: tam@tamprinter.com

Contact Person: Mr. Tam Liu

Showroom: <http://tamprinter.en.made-in-china.com>

Company Info

Tamprinter printing machinery group limited is one of the most professional special printer supplier of Plastic Field in China. We have supplied OEM service for the domestic counterparts since 2005. OEM products have been achieved CE certification.

Due to business expansion, Shenzhen Tamprinter printing machinery limited International trade department have been separated from the parent company in March 2013.

Key products: Pad printer, Screen printer, UV curing machine, Heat transfer machine.

Major market: America market.

Business scopes:

1. Research, develop, produce and sell: Pad printer, Screen printer, Heat transfer machine, Hot stamping machine, Pre-post printer(UV curing machine, Flame treatment machine, UV exposure clich machine, Coating emulsion machine, Silk mesh tighten machine, Screen stencil drying oven, Silk screen frame exposure machine, Steel pad plate oven, IR oven, IR drying tunnel conveyer);
2. Trade and authorize for the patent of the above products, Services about design, testing, maintenance, and technical consulting;
3. Valet Manufacture: flame treatment gun, screen frame, Screen Stencil, pad, steel plates, film, Drying Racks Trolley and the relative moulds, jigs and parts;
4. Sale by proxy the relative supporting materials: printing ink, Ink Adjustment tool, Rubber pads Materials, Pad Printing Blade, ink cup and ring, Pad holder, ink roller, Screen Silk, Aluminium Screen Frame, Rubber Squeegee, sensitive emulsion, Emulsion Coating tool, Etching powder, Sensor Switch, Tension meter, Spraying gun, Circuit board, Inkwell, Solenoid Valve, hot stamping foil, High temperature tape, Stamp plate, Silicon rubber roller, Heat transfer paper, High temperature glue, UV lamp, UV lamps Trigger etc;
5. Our engineer can communicate with clients at anytime in English, design development use UG, Proe, Autocad, Mastercam;
6. Import and export business of the above items.

Applications:

Flat Screen Printing Machine

It mainly applies to the printing process and pre-postpress of plastic and hardware products. Our equipment is also applicable to other material as glass, ceramic, wood, leather, cloth, etc.

Involved in the industry:

Electronics, toys, gifts, clothing, stationery, cosmetics, washing products, chemicals, food, health product, pharmaceutical and packaging etc.

Advantages:

1. All the electrical components and control system are from Germany and Japan, guarantee the stable quality of the print.
2. Multi-purpose microcomputer operating panel and touch screen operation can easily achieve man-machine dialogue.
3. As high quality steel frame structure and High temperature of the lacquer that bake, so that our printer is light and solid, beautiful and practical.

Our first-class products and considerate services have won more than 80 countries, acceptance in Europe and the United States, Canada, Southeast Asia, the Middle East and other customer, and we enjoyed a high reputation in the market. We cooperate with Omron, Emerson and Ruigao light, which are the world famous enterprises.

The value rules of our company:

Our vision: to become well-known brands in the industry.

Our belief: excellence, legendary achievements.

Our aim: to sustained profitability, the Foundation Changchun.

Our customer concept: improve customer satisfaction, and create a win-win situation.

Our product concept: safety, energy saving, environmental protection, easy to use.

Our opinion on talent: loyalty, integrity, professional spirit, dedication.

Our style: leading front among the people enough to be the first rate of people, self-discipline enough to convince the

Flat Screen Printing Machine

people.

Our criteria: compliance with commitments, do what we say.

Our motto: self-discipline to learn, know one line.

Our slogan: Healthy Living, happy work.

To me, the past is black and white, but the future is always color.

1. Vertical Screen Printer (TM-2030B)

Origin	China(Mainland)	Trademark	Tamprinter
Serial/Model NO.	TM-2030B	Standard	CE
Color & Page	Multi-Colour Printing Press	Structure	Flat-bed cylinder press
Style	Screen-process Printing Press	Type	Vertical Screen Printing Machine
Model No.	TM-2030b	Printing Area	200X300mm
Table Size	300X400mm	Max Frame	450X620mm
Printing Thickness	Less Than 40	Platform Precision	0.05 More or Less
Printing Pressure	4.0-6.0	Printing Speed	960
Power	380V/1.5kw	Dimensions (Lxwxh)Mm	830X720X1580mm

Trade Terms

Min. Order	1Sets	Unit Price	USD6878/Set
Trade Terms	FOB, CFR, EXW, CIF, FCA	Payment Terms	L/C,T/T,Western Union,unionpay
Price Valid Time	Sep 07, 2013 ~ Aug 29, 2014		

Availability

HS Code	8443192900	Production Capacity	50sets/Month
Packing	Plywood Case or Wooden Case as Required		

Flat Screen Printing Machine

Description

Application: Mobile phone cover, mobile phone back, Tablet PC cover.

Features:

1. The screen printing powered by imported servo motor, printing more stable.
2. A variety of accessories by the customer freedom of choice, choose more flexible.
3. Hard alumina Taiwan version and more effective to prevent the glass scratches.
4. Touch screen controls, a variety of fine-tuning the details can be precisely controlled.

Payment terms: T/T L/C Western Union

Packing: Plywood case/ wooden case as required

Lead time: 5 days after confirmed payment

SKU: 10sets

Standard certification: CE

Minimum Order: 1 set

Price term: CIF/FOB/CFR/FCA/EXW

Payment Terms TT/LC/ Western Union

Packing	Plywood Case/Wooden Case/Cartron/as Required		

Description

Features:

Flat Screen Printing Machine

- (1). Printing machine is driven by motor drive, which is belt drive, sensitive, balanced speed, speed adjustable.
- (2). Oblique arm lifting motor, frequency control, the machine runs smoothly.
- (3). Blade and back blade pressure regulating device, and can be adjusted to the thickness and size of printing.
- (4). Vacuum adsorption fixed printing pieces.
- (5). The printing plate has up and down, left and right, before and after tuning device, which makes it works accurate and convenient on board.
- (6). Equipped with a safety device so that the oblique arm is stopped in an upper position having a reliable security.
- (7). Electronic control unit centralized control by the microcomputer controller, the whole operation more simple, flexible, and easy maintenance.

Application:

Flat Screen Printer of this series is widely used in the packaging industry (cigarette packaging, wine packaging, gift packaging and other card paper printing) trademark, calendar, oil painting, computer keyboards, paintings, iron-on transfers, credit cards, stickers, printing; Also suitable for the printing of the electronics industry.

Product Table

Model No.	TMP-70100
Workbench area	800X1100mm
Max printing area	700X1000mm
Max screen size	1000X1300mm
Min screen size	550X650mm
Thickness of print (mm)	0-20mm 0-50mm
Source power (kw)	2.3
Rated voltage (v/hz)	220/50
Printing speed (pcs/h)	400-1000
Machine size(mm)	1600X1350X1280mm
Max table height	820
weight	480kg

4. Multi-Function Flat Screen Printer (TM-600PT)

Origin	China(Mainland)	Trademark	Tamprinter
Serial/Model NO.	TM-600PT	Standard	CE
Color & Page	Multicolor	Structure	Platen Press
Style	Screen-process Printing Press	Type	Flat Screen Printer
Worktable Largest Size	400X650mm	Max. Printing Area	350X550mm
Max Printing Speed	1000PCS/Hr	Air Consumption	104litre/Min(6bar)
Power	110/220V 60/50Hz 750W	Dimensions	800X1100X1500mm(Lxwxh)
Weight	195kg		

Trade Terms

Min. Order	1Sets	Unit Price	USD4855/Set
Trade Terms	FOB, CFR, EXW, CIF, FCA	Payment Terms	L/C,T/T,Western Union

Availability

Production Capacity	20sets/Month	Packing	Plywood Case/Wooden Case/as Required
----------------------------	--------------	----------------	--------------------------------------

Description

Machine features:

1. The screen printer with microcomputer control, high automatic function, easy setting and operation.
2. Import the component from Germany and Japan, the function can be trustiness.
3. The oil return and scraper double mould, meet the every kind of the printing requirements.

Flat Screen Printing Machine

4. The printing route and the speed can adjustment, satisfied with the all kinds of printing requirements.
5. Can balance the scraper by itself, to ensure the printing pr essure equality.
6. Use the import axes, axile bush made the screen scraper placidity slide printing.
7. The slide speed can adjustment independently, it is convenient and fast.
8. The Printing is high precision, convenient and quick.
9. With the function of vacuum inhale, can printing the very thinly things.

Random accessories:

One Tool box one piece of Chinese specifications one set of tongs one set of Allen key. One set of Philip's head screw, one of the located air cylinder.

Payment terms: T/T L/C Western Union

Packing: Plywood case/ wooden case as required

Lead time: 5 days after confirmed payment

SKU: 10sets

Standard certification: CE

Minimum Order: 1 set

Price term: CIF/FOB/CFR/FCA/EXW

5. Hot Sale Multi-Function Flat Screen Printer (TM-500PT)

----------------	---	--	--

Description

Application:

This screen printer has been widely used in the printing of membrane switch, thermal transfer, water transfer, PCB, LED, SMT, solder paste, plastic cement, glass, ceramics, keyboard, metal, leather, textile.

Features:

1. Printing transmission is driven by the electric motor, synchronous belt drive, action sensitive, even speed and can be adjusted.
2. Machine up and down is driven by the electric motor, frequency control, smooth operation, scraper and scraping blade have a air pressure governor, the thickness of the printing can be adjusted.
3. Vacsorbing to fix printing stocks.
4. The worktable has a vernier regulation system (can move left and right, forward and backward) that makes registration more correctly and simply.
5. The screen printing machine is with security devices to make the head printing stop on the upper part position that is more reliable and safer.
6. The electronic control unit (ECU) is central control by the microcomputer, the operation of complete appliance is simpler and more flexible, easy to maintain.

Flat Screen Printing Machine

Description

Application:

This type of screen printing machine is widely used in the electronics industry, PCB, LCD, soft lines, membrane switch printing, packaging printing, signs, calendars, painting, computer keyboards, paintings, iron-on transfers, stickers, credit card printing; Film, glass lenses, thin metal plate printing.

Performance characteristics

- (1). The screen printing machine is driven by motor drive, belt drive, sensitive, balanced speed, speed adjustable.
- (2). Screen vertically, driven by a motor, frequency control, the machine runs smoothly.
- (3). Blade and back blade pressure regulating device, and can be adjusted to the thickness and size of printing.
- (4). The working process is divided into manual, semi-automatic and automatic.
- (5). Vacuum adsorption fixed printing pieces.
- (6). Printing plates has left and right, before and after fine-tune the device so that accurate and convenient to the board.
- (7). The screen printer is equipped with security guards, which makes the reliable security.
- (8). Centralized control of microcomputer, reliable performance, low failure rate, the machine is easy to operate, flexible, and easy maintenance.

Product Table

Model No.	TM-6080C	TM-4060C
Size of printing table	700mmX1000mm	500mmX800MM
Max printing area	600mmX800mm	400mmX600mm
Max screen frame size	900mmX1200mm	700mmX1000mm
Printing thickness range	0-30mm	0-30mm
horizontal fine-tune amount	+10mm	+10mm
Machine repeatability	+0.03mm	+0.03mm
Air pressure	0.5~0.6(Mpa)	0.5~0.6(Mpa)
Air consumption	35L/min	35L/min
power	2.5KW	2.5KW
voltage	220V/50Hz	220V/50Hz
Printing speed	200pcs/h~720pcs/h	200pcs/h~720pcs/h
Dimensions	1530mmX1160mmX1750mm	1330mmX930mmX1750mm
weight	700kg	600kg

11. Precision Vertical Plane Screen Printing Machine (TM-D5070)

Origin	China(Mainland)	Trademark	Tamprinter
Serial/Model NO.	TM-D5070	Standard	CE
Color & Page	Multi-Colour Printing Press	Structure	Platen Press
Style	Screen-process Printing Press	Type	Vertical Screen Printing Machine
Worktable Largest Size	500X700mm	Max. Printing Area	450X600mm
Max Printing Speed	1000PCS/Hr	Air Consumption	104litre/Min(6bar)
Power	220/380V 60/50Hz 750W	Dimensions	970X1160X1760mm(Lxwxh)
Weight	240kg		

Trade Terms

Min. Order	1Sets	Unit Price	USD7120/Roll

Price Valid Time	Jul 31, 2013 ~ Aug 28, 2014		

Availability

HS Code	8443198000	Production Capacity	20sets/Month
Packing	Plywood Case/Wooden Case/as Required		

Description

Features:

Flat Screen Printing Machine

1. The vertical structure, the screen rises and falls uses air operated perpendicular, about pad head slides the precise straight line guide rail and uses the frequency conversion motor-driven.
2. Uses the monolithic integrated circuit integration microcomputer control, the simplicity of operator facilitates.
3. The printing shaving knife reciprocating action uses the pneumatic control, the pressure size adjustable, about the traveling schedule uses the photoelectric control, according to screen size length adjustable.
4. Control panel with manual, semi-automatic, fully automatic three modes, printing and indirect time digital control.
5. The independent nose elevating gear, cleans the screen doctor blade, the oil discharge knife, when the PARA-position color printing is very convenient, prints the platform to be equipped with the X, Y, Z direction the fine trimming.
6. The net clamps the arm to use the double guide pillar form, the adjustment is convenient, and according to the printer area size, provides to the net installment.

Lead time: 5 days after confirm payment

Flat Screen Printing Machine

Packing	Plywood Case/Wooden Case/as Required		
----------------	--------------------------------------	--	--

Description

Application:

Flat Screen Printer of this series is widely used in the packaging industry (cigarette packaging, wine packaging, gift packaging and other card paper printing) trademark, calendar, oil painting, computer keyboards, paintings, iron-on transfers, credit cards, stickers, printing; Also suitable for the printing of the electronics industry.

Performance characteristics:

- (1). The screen printing machine is driven by motor drive, which is belt drive, sensitive, balanced speed, speed adjustable.
- (2). Oblique arm lifting motor, frequency control, the machine runs smoothly.
- (3). Blade and back blade pressure regulating device, and can be adjusted to the thickness and size of printing.
- (4). Vacuum adsorption fixed printing pieces.
- (5). The printing plate has up and down, left and right, before and after tuning device, which makes it works accurate and convenient on board.
- (6). Equipped with a safety device so that the oblique arm is stopped in an upper position having a reliable security.
- (7). Electronic control unit centralized control by the microcomputer controller, the whole operation more simple, flexible, and easy maintenance.

Description

Machine features:

1. The screen printer with microcomputer control, high automatic function, easy setting and operation.
2. Import the component from Germany and Japan, the function can be trustiness.
3. The oil return and scraper double mould, meet the every kind of the printing requirements.

Flat Screen Printing Machine

4. The printing route and the speed can adjustment, satisfied with the all kinds of printing requirements.
5. Can balance the scraper by itself, to ensure the printing pressure equality.
6. Use the import axes, axle bush made the screen scraper placidity slide printing.
7. The slide speed can adjustment independently, it is convenient and fast.
8. The Printing is high precision, convenient and quick.
9. With the function of vacuum inhale, can printing the very thinly things.

Random accessories:

One Tool box one piece of Chinese specifications one set of tongs one set of Allen key. One set of Philip's head screw, one of the located air cylinder.

Flat Screen Printing Machine

Description

Application:

This type of machine is widely used in the electronics industry, PCB, LCD, soft lines, membrane switch printing, packaging printing, signs, calendars, painting, computer keyboards, paintings, iron-on transfers, stickers, credit card printing; Film, glass lenses, thin metal plate printing.

Performance characteristics:

- (1). The screen printing machine is driven by motor drive, belt drive, sensitive, balanced speed, speed adjustable.
- (2). Screen vertically, driven by a motor, frequency control, the machine runs smoothly.
- (3). Blade and back blade pressure regulating device, and can be adjusted to the thickness and size of printing.
- (4). The working process is divided into manual, semi-automatic and automatic.
- (5). Vacuum adsorption fixed printing pieces.
- (6). Printing plates has left and right, before and after fine-tune the device so that accurate and convenient to the board.
- (7). Equipped with security guards, which makes the reliable security.
- (8). Centralized control of microcomputer, reliable performance, low failure rate, the machine is easy to operate, flexible, and easy maintenance.

Description

Application:

This series of flat screen printing machine is widely used in electronics industry (such as PCB, thin-film switch and so on), packaging industry (such as cigarette case, wine box, gift box and so on), paper board industry (such as trademark, calendar, oil painting, computer keyboard, new year picture, transfer print paper, adhesive sticker, credit card, plate board and so on).

Feature:

- (1). High precision line and synchronous printing transmission adopts motor drive, speed equality and can be adjusted, balanced speed, speed adjustable.
- (2). Oblique arm lifting motor, frequency control, the machine runs smoothly.
- (3). Blade and back blade pressure regulating device, and can be adjusted to the thickness and size of printing.
- (4). Vacuum adsorption fixed printing pieces.
- (5). The printing plate has up and down, left and right, before and after tuning device, which makes it works accurate and convenient on board.
- (6). Equipped with a safety device so that the oblique arm is stopped in an upper position having a reliable security.
- (7). Electronic control unit centralized control by the microcomputer controller, the whole operation more simple, flexible, and easy maintenance.

Additional Info.

Payment terms: T/T L/C Western Union

Packing: Plywood case/ wooden case as required

Lead time: 5 days after confirmed payment

Sku: 10sets

Standard certification: CE

Minimum Order: 1 set

Price term: CIF/FOB/CFR/FCA/EXW

Warranty: 1 year

Product Table

Type	TM-120140
Worktable area (mm)	1400X1600
Max printing area (mm)	1200X1400
Max screen fame size (mm)	1550X1700
Thickness of materials (mm)	20
Printing speed	400~900pcs/h
Air pressure (Mpa)	0.4~0.8
Air consumption (L/pcs)	13
Power	5.5KW
Max worktable height (mm)	880
Dimension (LXWXH)	2480mmX1700mmX1380mm

Flat Screen Printing Machine

Weight	660kg
Rated voltage	220V/50Hz

21. Multi-Function Flat Screen Printing Machine (TM-700PT)

Origin	China(Mainland)	Trademark	Tamprinter
Serial/Model NO.	TM-700PT	Standard	CE
Color & Page	Single-Colour Printing Press	Structure	Flat-bed cylinder press
Style	Screen-process Printing Press	Type	Flat Screen Printing Machine
Worktable Largest Size	500X700mm	Max. Printing Area	450X600mm
Max Printing Speed	850PCS/Hr	Air Consumption	104litre/Min(6bar)
Power	110/220V 60/50Hz 750W	Dimensions	970X1160X1760mm(Lxwxh)
Weight	245kg	Original Place	China (Mainland)
Standard Certification	CE		

Trade Terms

Min. Order	1Sets	Unit Price	USD5825/Set
Trade Terms	FOB, CFR, EXW, CIF, FCA	Payment Terms	L/C,T/T,Western Union,unionpay
Price Valid Time	Aug 15, 2013 ~ Oct 25, 2014		

Availability

HS Code	8443198000	Production Capacity	50, 000PCS/Years
Packing	Plywood Case/Wooden Case/as Required		

Flat Screen Printing Machine

Description

Machine features:

1. The screen printer is with microcomputer control, high automatic function, easy setting and operation.
2. Import the component from Germany and Japan, the function can be trustiness.
3. The oil return and scraper double mould, meet the every kind of the printing requirements.
4. The screen printing route and the speed can adjustment, satisfied with the all kinds of printing requirements.
5. The screen printer can balance the scraper by itself, to ensure the printing pressure equality.
6. Use the import axes, axile bush made the screen scraper placidity slide printing.
7. The slide speed can adjustment independently, it is convenient and fast.
8. The Printing is high precision, convenient and quick.
9. The screen printing machine is with the function of vacuum inhale, can printing the very thinly things.

Random accessories:

One Tool box one piece of Chinese specifications one set of tongs one set of Allen key. One set of Philip's head screw, one of the located air cylinder.

Payment terms: T/T L/C Western Union

Packing: Plywood case/ wooden case as required

Lead time: 5 days after confirmed payment

SKU: 10sets

Standard certification: CE

Minimum Order: 1 set

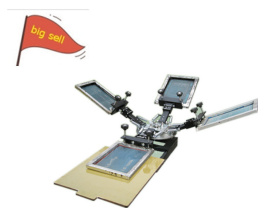

Price term: CIF/FOB/CFR/FCA/EXW

Warranty: 1 year

Product Table

Worktable largest size	500X700mm
Max. printing area	450X600mm
Max printing speed	850pcs/hr
Air consumption	104litre/min(6bar)
Power	110/220V 60/50Hz 750W
Dimensions	970X1160X1760mm(LXWXH)
Weight	245Kg

22. 4-Color Manual Screen Printer (TM-R4)

Origin	China(Mainland)	Trademark	Tamprinter
Serial/Model NO.	TM-R4	Standard	CE
Color & Page	Multi-Colour Printing Press	Structure	Manual Operate Silk Screen Printer
Style	Screen-process Printing Press	Type	Flat Screen Printing Machine
Table Size	450X400mm	Max Net Frame Size	500X450mm
Max Printing Area	400X350mm	Dimensions	1200X570X380mm(Lxwxh)
Weight	About 65kg	Standard Certification	CE
Original Place	China (Mainland)		

Trade Terms

Min. Order	1Sets	Unit Price	USD777/Set
Trade Terms	FOB, CFR, EXW, CIF, FCA	Payment Terms	L/C,T/T,Western Union
Price Valid Time	Jul 25, 2013 ~ Oct 25, 2014		

Availability

HS Code	8443198000	Production Capacity	50,000PCS/Years
Packing	Plywood Case/Wooden Case/as Required		

Description

Flat Screen Printing Machine

Machine features:

1. Table type designed, small volume, easy to move.
2. The roller counterpoint twist lock, exact chromatically.
3. Half tone cycle can printed four colors continuous.
4. The key parts are all electro plated, more sturdiness.
5. This screen printing equipment can furnish the halftone with four colors, as the same time. And can printing four colors as the same time.

Lead time: 5 days after confirm payment.

Payment: T/T L/C Western Union unionpay

Price term: CIF FOB FCA CFR EXW

Warranty: 1 year

Standard certificate: CE

Original place: China(mainland)

Product Table

Table Size	450X400mm
Max Net Frame Size	500X450mm
Max printing area	400X350mm
Dimensions	1200X570X380mm(LXWXH)
Weight	about 65Kg

23. Flat Screen Printer with T Table (TM-400F)

Origin	Guangdong, China	Trademark	Tamprinter
Serial/Model NO.	TM-400F	Standard	CE
Structure	Platen Press	Style	Screen-process Printing Press
Type	Automatic Screen Printing Machine	Max Printing Diameter	Dim150mm
Max Printing Thickness	300mm	Max Worktable Size	250X400mm
Max. Printing Area	230X380mm	Max Printing Speed	1200PCS/Hr
Air Consumption	110litre/Min(6bar)	Power	110/220V 60/50Hz
Dimensions	870X1000X1310mm(L x W x H)	Weight	160kg

Trade Terms

Min. Order	1Sets	Unit Price	USD3410/Set
Trade Terms	FOB, CFR, CIF, EXW	Payment Terms	L/C,T/T,Western Union
Price Valid Time	Sep 07, 2013 ~ Oct 26, 2013		

Availability

HS Code	8443198000	Production Capacity	50, 000PCS/Years
Packing	Plywood Case/Wooden Case/Cartron/as Required		

Description

Flat Screen Printing Machine

Technical parameters:

Max printing diameter: DIM150mm

Max printing thickness: 300mm

Max worktable size: 250X400mm

Max. Printing area: 230X380mm

Max printing speed: 1200PCS/hr

Air consumption: 110litre/min(6bar)

Power: 110/220V 60/50Hz

Dimensions: 870X1000X1310mm(L x W x H)

Weight: 160kg

Application:

This device is suitable for plastic products, electronics, hardware, cosmetics, gifts, leather goods, toys, stationery, wood and glass products and other industries.

Machine features:

1. The screen printer with Microcomputer control high degree of automation, simple operation.
2. Using the German BOSCH, FESTO pneumatic components such famous factory, reliable performance.
3. Back to the oil scraper dual mode selection; Adapt to various printing requirements.
4. The printing stroke and speed are adjustable to meet different printing requirements.
5. Automatic balancing scraper, can ensure equalized printing pressure.
6. The screen printer is using imported axis, so that the screen scraper smooth glide sleeve printing.
7. Slide speed can be independently adjusted, easier to use, fast.
8. Table movements using oblique desktop glide, more convenient replacement product for printing.

Product Table

Max printing diameter	DIM150mm
Max printing thickness	300mm
Max worktable size	250X400mm

Flat Screen Printing Machine

Max. printing area	230X380mm
Max printing speed	1200pcs/hr
Air consumption	110litre/min(6bar)
Power	110/220V 60/50Hz
Dimensions	870X1000X1310mm(L X W X H)
Weight	160kg

24. Vertical High Precision Flat Screen Printing Machine (TM-6090C)

Origin	China(Mainland)	Trademark	Tamprinter
Serial/Model NO.	TM-6090C	Standard	CE
Color & Page	Multi-Colour Printing Press	Structure	Platen Press
Style	Screen-process Printing Press	Type	Vertical Screen Printing Machine
Model No	TM-6090c	Printing Area	600X900mm
Platform Size	700X1000mm	Max Screen Size	800X1200mm
Substrate Thickness	Less Than 50mm	Platform Precision	0.05 More or Less
Printing Pressure	4.0-8.0	Printing Speed	400-600PCS/H
Power Supply	380V/2.3kw	Dimension	1500X1070X1750mm

Trade Terms

Min. Order	1Sets	Unit Price	USD7305/Set
Trade Terms	FOB, CFR, CIF, FCA, EXW	Payment Terms	L/C,T/T,Western Union,unionpay
Price Valid Time	Aug 14, 2013 ~ Aug 27, 2014		

Availability

HS Code	8443198000	Production Capacity	20sets/Month
Packing	Plywood Case/Wooden Case/as Required		

Description

Flat Screen Printing Machine

Applications:

This type of screen printing machine is widely used in the electronics industry, PCB, LCD, soft lines, membrane switch printing, packaging printing, signs, calendars, painting, computer keyboards, paintings, iron-on transfers, stickers, credit card printing; Film, glass lenses, thin metal plate printing.

For the Nameplate, Display Glass, light guide, lens window, membrane key switches.

Performance characteristics

- (1). The screen printing machine is driven by motor drive, belt drive, sensitive, balanced speed, speed adjustable.
- (2). Screen vertically, driven by a motor, frequency control, the machine runs smoothly.
- (3). Blade and back blade pressure regulating device, and can be adjusted to the thickness and size of printing.
- (4). The working process is divided into manual, semi-automatic and automatic.
- (5). Vacuum adsorption fixed printing pieces.
- (6). Printing plates has left and right, before and after fine-tune the device so that accurate and convenient to the board.
- (7). The screen printer is equipped with security guards, which makes the reliable security.
- (8). Centralized control of microcomputer, reliable performance, low failure rate, the machine is easy to operate, flexible, and easy maintenance.
