Features

CE Standard, with isolated external power supply

PF>0.95, Power Efficiency >0.85

100-240V , 0-10V dimmable

Total Harmonic Distortion ⩽ 15 %

LGP 3mm thick, imported from Taiwan

3 years warranty

High efficiency: 80lm/w

4014SMD LED, Ra>80, LM80

Both dimmable & non-dimmable are available

Energy-saving & Super bright , saving 75% energy compared with traditional panel lights

SMD4014

Main Specification

Power:0.2W
Voltage:3.0-3.4V
Current:60mA
Size:4.0(L)*1.4(W)*0.7(T)mm
lumens:26-28LM
Color: Energy Star standard
CRI: >80ra
Life time:>50,000hrs

LM-80 chips testing report offeded , if need .

Why we choose SMD4014 ?
Not SMD2835 ???

1.Same fuctions with SMD2835
2. No Patent troubles if export
3. Price reducing trend
4.Liner chips ,much better for Panel light

Diffuser Plate

1.PC-- Polycarbonate

1.Transmittance is relatively low, less 85%
2.Material properties is very stable
3.fire levels to meet European standards
4.Expensive price

2.PMMA--Acrylic

1.Transmittance is high , more than 90%
2.Also very stable , easy to broken
3.High price

3.PS--Polystyrene

Using

1.Has good chemical stability , optical properties
2.poor weather, outdoor easy to yellow brittle, bad heat sank
only used under70 degrees
3.Transmittance is more than 90%
4.Competitive price

4.PP--Polypropylene

1.Low Transmittance
2.Good Toughness
3.Easy to droop
4. Cheapest price

Reflective Paper

PET material
1.More than 95% Reflectance
2.Erosion agaist, can put hydrochloric acid solution
3.High temperature agaist,ok for 150℃
4.Oxidation agaist, color never change with long time using
5.Any size can be cut easily
6.6-10years working life
7.Ip65 level

0.3mm size

Driver-LEDKinglight

Light +Driver =CE , our driver are CE approved too.

Advantage:

1 We design and produced by ourself , we control quality and cost
2.90-277V . THD 15% .PF>0.97(120V-0.99, 230V-0.97)
3.Two pressure-sensitive , anti- surge capability to meet the requirements of international standards and other related EMS
4.-30℃-45℃ working ,Short-circuit protection , overload protection, over voltage protection , over current protection , and soft start function
5. 50,000-175,000hours working life
6..EMC, LVD approved

Driver Testing Report

The brand of capacitor are SKC,Beryl,etc. The brand of ic is ON-bright.

Our driver is isolated,past 3750V test.

For 105 degree(105 ℃),the life span of our panel light is over 5,000hours;

For 95 degree(95 ℃),the life span of our panel light is over 10,000hours;

For 85 degree(85 ℃),the life span of our panel light is over 20,000hours;

For 75 degree(75 ℃),the life span of our panel light is over 40,000hours;

For 65 degree(65 ℃),the life span of our panel light is over 80,000hours.

FAQ

1. Are you factory?
Yes.

2. Can leadtime be more shorter because I am urgent?
Yes, please contact us urgently to check the details.

3. I want high quality LED panel light, can you do?
Yes, we will provide famous brand high quality LED chips & drivers & LGP

4.Can we do our brand? Can you print or emboss our logo on the tank? And our own brand box?
Yes! Yes! Yes! we can be OEM/ODM

5. If there are some lights that can not work when i receive the goods?
Don't worry, we will give you same quantity of good lights for compensation in your next order.

6. How many years does your company focus on LED lighting industry ?
Since 2009, 6 years experence producing

7.How does your factory do regarding quality control?
Quality is priority. LEDKinglight people always attach great importance to quality controlling from the very beginning to the very end.

8. If Testing report and IES files can offered ?
of course ,we can offer these . we have the professional
testing Instruments and Machines ,also professioanl testing engineers

9. how many can your produce within one month ? if i need 45w 2x2ft ?
300pcs LED tube/HOUR
3000pcs LED tube/DAY
18000pcs LED tube/WEEK
72000pcs LED tube/MONTH
