

LED Flood Light

Available Power: 50W/80W/100W/150W/200W

Features

- 1) Streamline and ultra Slim design, the newest led flood lights in the market
- 2) Adopt Philips chip SMD3030 LEDs, the lumen output is higher than normal COB LED.
- 3) Reasonable structure, good at cooling, waterproof, dustproof and so on.
- 4) Lamps installed by screws, the process is simple, the lamp is securely installed.
- 5) 4mm thickness tempered glass, high light transmittance rate and good protect LEDs

Applications

- 1) Tunnel, subway, underground lighting;
- 2) Gymnasium, sports stadium lighting;
- 3) Building, Billboard lighting;
- 4) Gas station, Garage Lighting;
- 5) Park, Garden Lighting;
- 6) Other indoor & outdoor occasions

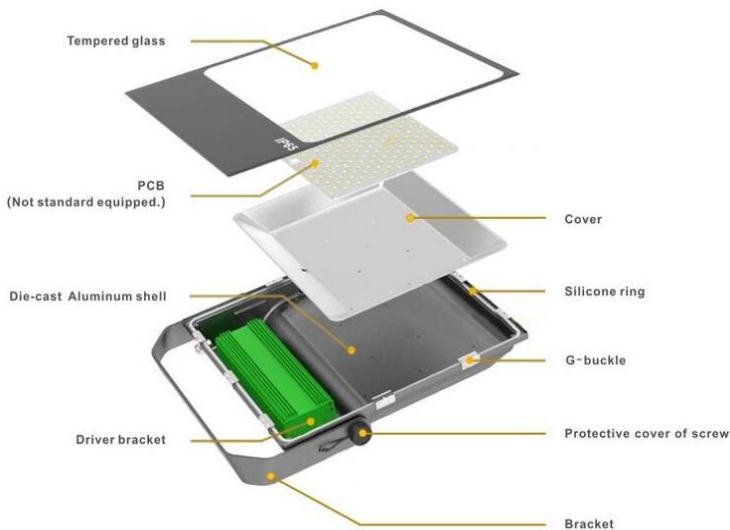

Specifications

LED Type	3030SMD
LED Brand	Philips
Lumen Efficiency	130lm/W
LED Lifespan	50,000H
IP Rating	IP65
Mains Voltage	85-265VAC, 50-60Hz
Beam Angle	120° standard
White Colour Temp (K)	Cool (6000), Day (4000), Warm (3000K)
Power Factor	>0.9 (Commercial/Industrial Grade)
CRI	73-81
Mounting	Universal, Pivoting Mounting bracket, pipe-mount extra

Installation

- Step 1: Cut off the power
- Step 2: Check fittings, get installation tools ready.
- Step 3: Fixed lamp on stand as the installation pictures show.
- Step 4: Put the drive on ceiling or other suitable place.
- Step 5: Ensure water proof and moisture proof when outdoor use, waterproof junction box is suggested when wires connected, please refer to the installation pictures.
- Step 6: Adjust angle and fix, connect to the power after checking without problem.
