## High quality inner materials for IPL&SHR machine

**Capacitor:** 12,000 $\mu$ F \*3  
100% NEW and SAFE,  
imported from Japan  
Nippon

**Control PCB**, this is the best PCB  
among Chinese suppliers. We  
design it by ourselves, use the  
fast connection, convenient to  
maintenance, offer the best  
protection to the machine

**Air Fan** Made by Suntronix  
with the large blast capacity  
to guarantee perfect air  
cooling effect.

**Special Leakage protector**  
Schneider Electric (France),  
which better protects the  
power supplier and the  
machine. While other  
suppliers don't have this.

## High quality inner materials for IPL&SHR machine

Water Cooling Made by **XSPC**

Pump- Water Flow Rate: 3.0L/min.  
We use **high-pressure diaphragm pump**, which offer a high water pressure to guarantee the better handle cooling.
