

## Stainless Steel Security Screen

General manufactures stainless steel security screen in 304 for 11mesh x 0.9mm and 316 for 11mesh x 0.8mm,especially export to Australia and New Zealand.

304 stainless steel is stronger and wear resistance than 316 because of its wire diameter 0.9mm.But 316 stainless steel has better corrosion resistance.

Stainless steel security screen and insect screen are used in in window and door.

### Stainless Steel Security Screen'use follows as:

- 1.Hinged Doors
- 2.Sliding Doors
- 3.Double Doors
- 4.Security Screens
- 5.Fire Escape Exit Screens
