

RF wireless remote RGB controller instruction

Controller usage instruction:

Input voltage: AC 7-24V

Output voltage: AC 7-24V

Output current: each circuit 8A

Controller outlet:

Size: **L:100mm**×**W:60mm**×**H:33mm**

Weight: 95g

Remote instruction:

Size: **L:85mm**×**W:36mm**×**H:14mm**

Weight: 40g

RF Wireless remote controller functions:

A: Short push to power off, long push to sound control in pointed mode.

B: Full color settled mold: R → G → B → Rg → Rb → Gb → Rgb) .In this state, long push A into sound control mold of this state

C: (R/g/b/rg/rb/gb/rgb circular jump colors changing; long push A into sound control of this state);(R/g/b/rg/rb/gb/rgb full color settled off)

D: (Compose gradual change R/g/b/rg/rb/gb/rgb.) ; (Circular gradual change R/g/b/rg/rb/gb/rgb) ;

(Gradual change, jump colors changing, on/off compose mold)

RF remote control characteristic: remote control to 30 meters, no orientation.
