

GE-1207 Well Depth Meter

Character:

- * **widely used in the well and narrow pond**
- * Application of radio frequency admittance technology,
- * Stable and reliable work, high anti-jamming.
- * Able to measure the strong corrosive liquid.
- * Free maintenance, prevent hanging, no regular cleaning or repeat calibration.
- * Easy installation, thread, flange installation,

Technical Data:

- * Measure Range **0...0.5...200m max**
- * Signal output: 4-20mA, customized is available
- * Accuracy: $\leq +0.35\%FSO$
- * working temperature -40...85°C
- * medium temperature -20...60°C
- * measurement principle: diffused silicon

How to choose model:

Well Level Meter	GE-1207-	
Power Supply	12V	A-
	24V	B-
	220V	C-
Output	4-20mA	A
	4-20mA + Screen display	B
Measure Range	The depth	0-200m
Cable Length for sensor	Same as measure range in usual	0-200m

Mark: if any special condition, please declare when purchase
