

## Oil-only Absorbent Pads (MRO)

### Features:

Oil Only Absorbents provide users with a durable absorbent for cleaning up petroleum based spills and leaks. These sorbents have proven to absorb liquids & repel water, and is effective in both industrial and environmental applications. The Oil only sorbents are best applied during emergency spills for fast and easy clean-up.

1. 100% polypropylene construction, won't rip, tear or fray even when saturated.
2. Highly absorbent, fine-fiber construction, will not absorb a drop of water
3. Floats to clean up spills on water
4. Bright white color makes absorbed oil easier to see; draws attention to machine leaks and clearly shows saturation level during spill response
5. Can be wrung out and incinerated after use to reduce waste or for fuels blending.
6. PP-1 is mainly used to absorb crude petroleum; PP-2 is suitable for absorbing light oil, oil with low and medium viscosity and the volatile chemical liquids with light specific weight.

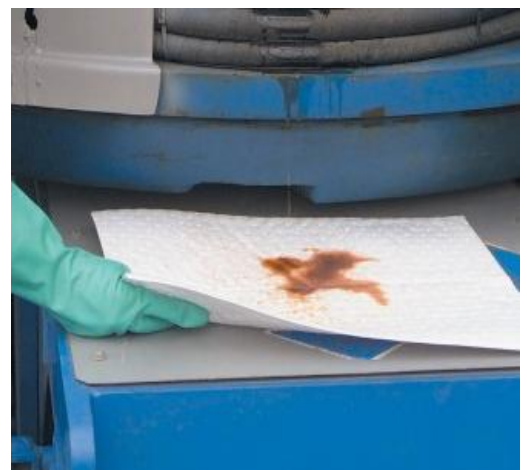

### Applications

Transport companies.

Marine Oil Spill

Ship and dock

Chemical & equipment factories
