

## Oil-only Absorbent Pillows

### Features:

1. Ideal for use in waste troughs, coolant tanks, fluid reservoirs, and sump wells
2. Great for absorbing spills and leaking fluids in tight spaces.
3. Pillow has large surface area, high capacity and fast-wicking filler to quickly soak up liquids
4. Contained absorbent makes cleanup quick and easy
5. Compact design is great for catching persistent drips and leaks in small spaces
6. Polypropylene filler is chemical-resistant and hydrophobic for containing and absorbing oil-based spills in a variety of environments
7. Polypropylene skin is chemical- and tear-resistant; reduces dust and holds in liquid, even when fully saturated
8. Absorbs and retains oils and oil-based liquids—including lubricants, fuels and cleaning agents—without absorbing a drop of water.
9. Floats to clean up spills on water confined by booms or socks
10. Bright white color makes Pillow easier to see in outdoor environments, draws attention to machine leaks and clearly shows saturation level
11. Skin is UV resistant up to 12 months; meets NFPA 99 standards for static decay
12. Can be incinerated after use to reduce waste or for fuels blending

## Applications:

Absorb spills on water or land without taking in a drop of water. Xinluo oil absorbent Pillows float on water for soaking up contained oil but can also be used for land-based spills and leaks.

## Specifications:

4. Recycled content is ideal when "Green" products are desired or required
5. Stitch-bonded, polypropylene skin is chemical- and burst-resistant; reduces dust and holds in liquid, even when fully saturated.
6. Wringable for reclaiming absorbed liquid.
7. Absorbs and retains oils, coolants, solvents and water
8. Can be incinerated after use to reduce waste or for fuels blending

**Applications**

Absorb deep spills or catch drips before they become puddles to keep floors dry and workers safe. Xinluo Oil absorbent pillows are highly absorbent for soaking up pools of liquid but are also small enough for the long-term absorption of nuisance leaks.
