

Oil-only Absorbent Booms

Features:

1. Absorbs and retains oils and oil-based liquids—including lubricants, fuels and cleaning agents—without absorbing a drop of water
2. Rope running along length of Boom adds strength for deployment and retrieval
3. Strong, zinc-plated carbon steel attachment clips and rings allow you to link Booms together for greater length.
4. Contained absorbent makes cleanup quick and easy.
5. Polypropylene filler absorb oil-based spills in a variety of environments; holds in liquid, even when fully saturated.
6. Tough outer mesh resists snags and debris while remaining pliable
7. Hugs ground to confine and soak up spills on land; floats to confine and soak up spills on water
8. Bright white or yellow color is easier to see in outdoor environments
9. Can be incinerated after use to reduce waste or for fuels blending

Composition:

Outer Mesh Skin - Polyester

Inner Skin - Polypropylene

Pulp Filler - Polypropylene

Clip/Ring - Zinc Plated Carbon Steel

Applications

Contain and absorb spills on water or land before they can spread. Absorbent Booms float for confining and soaking up oil spills on water but can also be used for land-based spills.
