

**DEKON**

**UV AIR PURIFYING LED  
FOR CASSETTE&FCU**

# Warning signs of the coronavirus:

Why we knew about it and couldn't stop it

**Virus transmission mostly take place in public areas.  
How can we protect?**

**Wear masks**

**Wash hands**

**Social distance**

# ENOUGH?

# How can assure your safety in the public?

Bacteria and virus via air transaction can cause allergy, asthma and other diseases.

Most experts state, virus can be transmitted through droplet, thus also the reason why we need masks.

**Except for regular disinfection, effective air disinfection is the solution to let you breathe safe.**
