

HMVS150MA

150-sheet auto feed shredder with P5 security level

Feed Type: Auto Feed

Cut Size (mm): 3x10mm

Run time (minutes): 30 mins

Cooling time (minutes): 15 mins

Product features

Shreds up to 150 sheets automatically or 6 sheets manually with 3x10mm cutting size.

Long run time at 30 minutes continuously before short cooling period needed.

Overheat and Overload protection to prolong the lifetime of machine.

Includes 26 litre of bin size and LED indicator.

Quick shredding speed in auto feed.

HMVS130MA

130-sheet auto feed shredder with P5 security level

130-sheet auto feed shredder with P5 security level

Feed Type: Auto Feed

Cut Size (mm): 3x10mm

Run time (minutes): 30 mins

Cooling time (minutes): 15 mins

Product features

Shreds up to 130 sheets automatically or 6 sheets manually with 3x10mm cutting size.

Long run time at 30 minutes continuously before short cooling period needed.

Overheat and Overload protection to prolong the lifetime of machine.

Includes 26 litre of bin size and LED indicator.

Quick shredding speed in auto feed.

HMVS130AF

130-sheet auto feed shredder with P4 security level

130-sheet auto feed shredder with P4 security level

Feed Type: Auto Feed

Cut Size (mm): 4x40mm

Run time (minutes): 10 mins

Cooling time (minutes): 40 mins

Product features

Shreds up to 130 sheets automatically or 8 sheets manually with 4x40mm cutting size.

Can run 10 minutes continuously before cooling period needed.

Overheat and Overload protection to prolong the lifetime of machine.

Includes 26 litre of bin size and LED indicator.

Quick shredding speed in auto feed.

HMVS1008CT

10-sheet shredder with P3 security level

10-sheet shredder with P3 security level

Feed Type: Traditional

Cut Size (mm): 4x35mm

Run time (minutes): 2 mins

Cooling time (minutes): 45 mins

Product features

Shred 10 sheets of paper per pass with 4x35mm cutting size and able to shred CD.

Can run 2 minutes continuously before cooling period needed.

Overheat protection to prolong the lifetime of the machine.

Includes 21 liters of bin size.

HMVS1008CD

10-sheet paper shredder with P3 security level

10-sheet shredder with P3 security level

Feed Type: Traditional

Cut Size (mm): 4x40mm

Run time (minutes): 2 mins

Cooling time (minutes): 45 mins

Product features

Shred 10 sheets of paper per pass with 4x40mm cutting size and able to shred CD.

Can run 2 minutes continuously before cooling period needed.

Overheat protection to prolong the lifetime of machine.

Includes 21 litre of bin size.

HMVS515C

5-sheet paper shredder with P3 security level

5-sheet shredder with P3 security level

Feed Type: Traditional

Cut Size (mm): 5×40mm

Run time (minutes): 2 mins

Cooling time (minutes): 30 mins

Product features

Shred 5 sheets of paper per pass with 5x40mm cutting size.

Can run 2 minutes continuously before cooling period needed.

Overheat protection to prolong the lifetime of machine.

Includes 11 litre of bin size.

HMVS1212CD

12-sheet paper shredder with P3 security level

12-sheet paper shredder with P3 security level

Feed Type: Traditional

Cut Size (mm): 4×50mm

Run time (minutes): 2 mins

Cooling time (minutes): 30 mins

Product features

Shred 12 sheets of paper per pass with 4x50mm cutting size and able to shred CD.

Can run 3 minutes continuously before cooling period needed.

Overheat protection to prolong the lifetime of the machine.

Includes 18 litres of bin size.

HMVS1012CD

10-sheet paper shredder with P3 security level

10-sheet shredder with P3 security level

Feed Type: Traditional

Cut Size (mm): 4×50mm

Run time (minutes): 2 mins

Cooling time (minutes): 30 mins

Product features

Shred 10 sheets of paper per pass with 4x50mm cutting size and able to shred CD

Can run 3 minutes continuously before cooling period needed.

Overheat protection to prolong the lifetime of machine.

Includes 18 litre of bin size.

HMVS819C

8-sheet paper shredder with P3 security level

8-sheet paper shredder with P3 security level

Feed Type: Traditional

Cut Size (mm): 5×46mm

Run time (minutes): 2 mins

Cooling time (minutes): 30 mins

Product features

Shred 8 sheets of paper per pass with 5x46mm cutting size.

Can run 2 minutes continuously before cooling period needed.

Overheat protection to prolong the lifetime of machine.

Includes 13 litre of bin size.

HMVS719CD

7-sheet paper shredder with P3 security level

7-sheet paper shredder with P3 security level

Feed Type: Traditional

Cut Size (mm): 5×46mm

Run time (minutes): 2 mins

Cooling time (minutes): 30 mins

Product features

Shred 7 sheets of paper per pass with 5x46mm cutting size and able to shred CD

Can run 2 minutes continuously before cooling period needed.

Overheat protection to prolong the lifetime of machine.

Includes 16 litre of bin size.

HMVS508SB

5-sheet paper shredder with P1 security level

5-sheet paper shredder with P1 security level

Feed Type: Traditional

Cut Size (mm): 7mm

Run time (minutes): 2 mins

Cooling time (minutes): 30 mins

Product features

Shred 5 sheets of paper per pass with 7mm cutting size.

Can run 2 minutes continuously before cooling period needed.

Overheat protection to prolong the lifetime of machine.

Includes 8 litre of bin size.

HMVS608C

6-sheet paper shredder with P3 security level

6-sheet paper shredder with P3 security level

Feed Type: Traditional

Cut Size (mm): 4x40mm

Run Time (minutes): 2 mins

Cooling time (minutes): 30mins

Product features

Shred 6 sheets of paper per pass with 4x40mm cutting size.

Can run 2 minutes continuously before cooling period needed.

Overheat protection to prolong the lifetime of machine.

Includes 13 liters of bin size and LED indicator.

HMVS1008MC

10-sheet paper shredder with P5 security level

10-sheet paper shredder with P5 security level

Feed Type: Traditional

Cut Size (mm): 2x15mm

Run time (minutes): 30 mins

Cooling time (minutes): 30 mins

Product features

Shred 10 sheets of paper per pass with 2x15mm cutting size.

Long run time at 30 minutes continuously before cooling period needed.

Overheat and Overload protection to prolong the lifetime of machine.

Includes 26 litre of bin size and LED indicator.

HMVS1007CD

10-sheet paper shredder with P3 security level

10-sheet paper shredder with P3 security level

Feed Type: Traditional

Cut Size (mm): 4x45mm

Run time (minutes): 2 mins

Cooling time (minutes): 30 mins

Product features

Shred 10 sheets of paper per pass with 4x45mm cutting size and able to shred CD.

Can run 2 minutes continuously before cooling period needed.

Overheat protection to prolong the lifetime of machine.

Includes 21 litre of bin size.

HMVS503SB

7-sheet paper shredder with P1 security level

7-sheet paper shredder with P1 security level

Feed Type: Traditional

Cut Size (mm): 4x40mm

Run time (minutes): 2 mins

Cooling time (minutes): 30 mins

Product features

Shred 5 sheets of paper per pass with 4x40mm cutting size.

Can run 2 minutes continuously before cooling period needed.

Overheat protection to prolong the lifetime of machine.

Includes 7 litre of bin size.

HMVS710CD

7-sheet paper shredder with P3 security level

7-sheet paper shredder with P3 security level

Feed Type: Traditional

Cut Size (mm): 4×40mm

Run time (minutes): 3 mins

Cooling time (minutes): 30 mins

Product features

Shred 7 sheets of paper per pass with 4x40mm cutting size and able to shred CD.

Can run 3 minutes continuously before cooling period needed.

Overheat protection to prolong the lifetime of machine.

Includes 16 litre of bin size.

HMVS713CD

7-sheet paper shredder with P3 security level

7-sheet paper shredder with P3 security level

Feed Type: Traditional

Cut Size (mm): 4x40mm

Run time (minutes): 3 mins

Cooling time (minutes): 30 mins

Product features

Shred 7 sheets of paper per pass with 4x40mm cutting size and able to shred CD.

Can run 3 minutes continuously before cooling period needed.

Overheat protection to prolong the lifetime of machine.

Includes 16 litre of bin size.

HMVS1208CD

12-sheet paper shredder with P3 security level

12-sheet paper shredder with P3 security level

Feed Type: Traditional

Cut Size (mm): 4x35mm

Run time (minutes): 3 mins

Cooling time (minutes): 45 mins

Product features

Shred 12 sheets of paper per pass with 4x35mm cutting size and able to shred CD.

Can run 3 minutes continuously before cooling period needed.

Overheat protection to prolong the lifetime of machine.

Includes 25 litre of bin size and LED indicator.

HMVS1502CD

15-sheet paper shredder with P3 security level

15-sheet paper shredder with P3 security level

Feed Type: Traditional

Cut Size (mm): 4x40mm

Run time (minutes): 20 mins

Cooling time (minutes): 45 mins

Product features

Shred 15 sheets of paper per pass with 4x40mm cutting size and able to shred CD.

Can run 20 minutes continuously before cooling period needed.

Overheat protection to prolong the lifetime of machine.

Includes 30 litre of bin size and LED indicator.

HMVS2000CA

20-sheet paper CD shredder with P3 security level

20-sheet paper & CD shredder with P3 security level

Feed Type: Traditional

Cut Size (mm): 4x35mm

Run time (minutes): 30 mins

Cooling time (minutes): 45 mins

Product features

Shred 20 sheets of paper per pass with 4x35mm cutting size and able to shred CD.

Can run 30 minutes continuously before cooling period needed.

Overheat protection to prolong the lifetime of machine.

Includes 35 litre of bin size and LED indicator.

HMVS1018C

10-sheet paper shredder with P4 security level

10-sheet paper shredder with P4 security level

Feed Type: Traditional

Cut Size (mm): 4x40mm

Run time (minutes): 5 mins

Cooling time (minutes): 30 mins

Product features

Shred 10 sheets of paper per pass with 4x40mm cutting size.

Can run 5 minutes continuously before cooling period needed.

Overheat protection to prolong the lifetime of machine.

Includes 18 litre of bin size and LED indicator.

HMVS1509C

15-sheet paper shredder with P4 security level

15-sheet paper shredder with P4 security level

Feed Type: Traditional

Cut Size (mm): 4x40mm

Run time (minutes): 30 mins

Cooling time (minutes): 30 mins

Product features

Shred 15 sheets of paper per pass with 4x40mm cutting size.

Long run time at 30 minutes continuously before cooling period needed.

Overheat and Overload protection to prolong the lifetime of machine.

Includes 26 litre of bin size and LED indicator.

HM005CC

8-sheet paper shredder with P4 security level

8-sheet paper shredder with P4 security level

Feed Type: Traditional

Cut Size (mm): 4x37mm

Run time (minutes): 2 mins

Cooling time (minutes): 30 mins

Product features

Shred 8 sheets of paper per pass with 4x37mm cutting size.

Can run 2 minutes continuously before cooling period needed.

Overheat protection to prolong the lifetime of machine.

Includes 4.5 litre of bin size.

HMVS610MC

6-sheet shredder with P5 security level

6-sheet paper shredder with P5 security level

Feed Type: Traditional

Cut Size (mm): 3x10mm

Run time (minutes): 2 mins

Cooling time (minutes): 30 mins

Product features

Shred 6 sheets of paper per pass with 3x10mm cutting size.

Can run 2 minutes continuously before cooling period needed.

Overheat protection to prolong the lifetime of machine.

Includes 15 litre of bin size.

HMVS804C

8-sheet paper shredder with P4 security level

8-sheet paper shredder with P4 security level

Feed Type: Traditional

Cut Size (mm): 4x40mm

Run time (minutes): 3 mins

Cooling time (minutes): 30 mins

Product features

Shred 8 sheets of paper per pass with 4x40mm cutting size.

Can run 3 minutes continuously before cooling period needed.

Overheat protection to prolong the lifetime of machine.

Includes 15 litre of bin size.

HMVS805MC

8-sheet paper shredder with P5 security level

8-sheet paper shredder with P5 security level

Feed Type: Traditional

Cut Size (mm): 3x10mm

Run time (minutes): 2 mins

Cooling time (minutes): 30 mins

Product features

Shred 8 sheets of paper per pass with 3x10mm cutting size.

Can run 2 minutes continuously before cooling period needed.

Overheat protection to prolong the lifetime of machine.

Includes 18 litre of bin size.

HMVS810MC

8-sheet paper shredder with P4 security level

8-sheet paper shredder with P4 security level

Feed Type: Traditional

Cut Size (mm): 3x12mm

Run time (minutes): 2 mins

Cooling time (minutes): 30 mins

Product features

Shred 8 sheets of paper per pass with 3x12mm cutting size.

Can run 2 minutes continuously before cooling period needed.

Overheat protection to prolong the lifetime of machine.

Includes 15 litre of bin size.

HMVS808C

8-sheet paper shredder with P4 security level

8-sheet paper shredder with P4 security level

Feed Type: Traditional

Cut Size (mm): 4x37mm

Run time (minutes): 3 mins

Cooling time (minutes): 30 mins

Product features

Shred 8 sheets of paper per pass with 4x37mm cutting size.

Can run 3 minutes continuously before cooling period needed.

Overheat protection to prolong the lifetime of machine.

Includes 10 litre of bin size.
