# Company Introduction

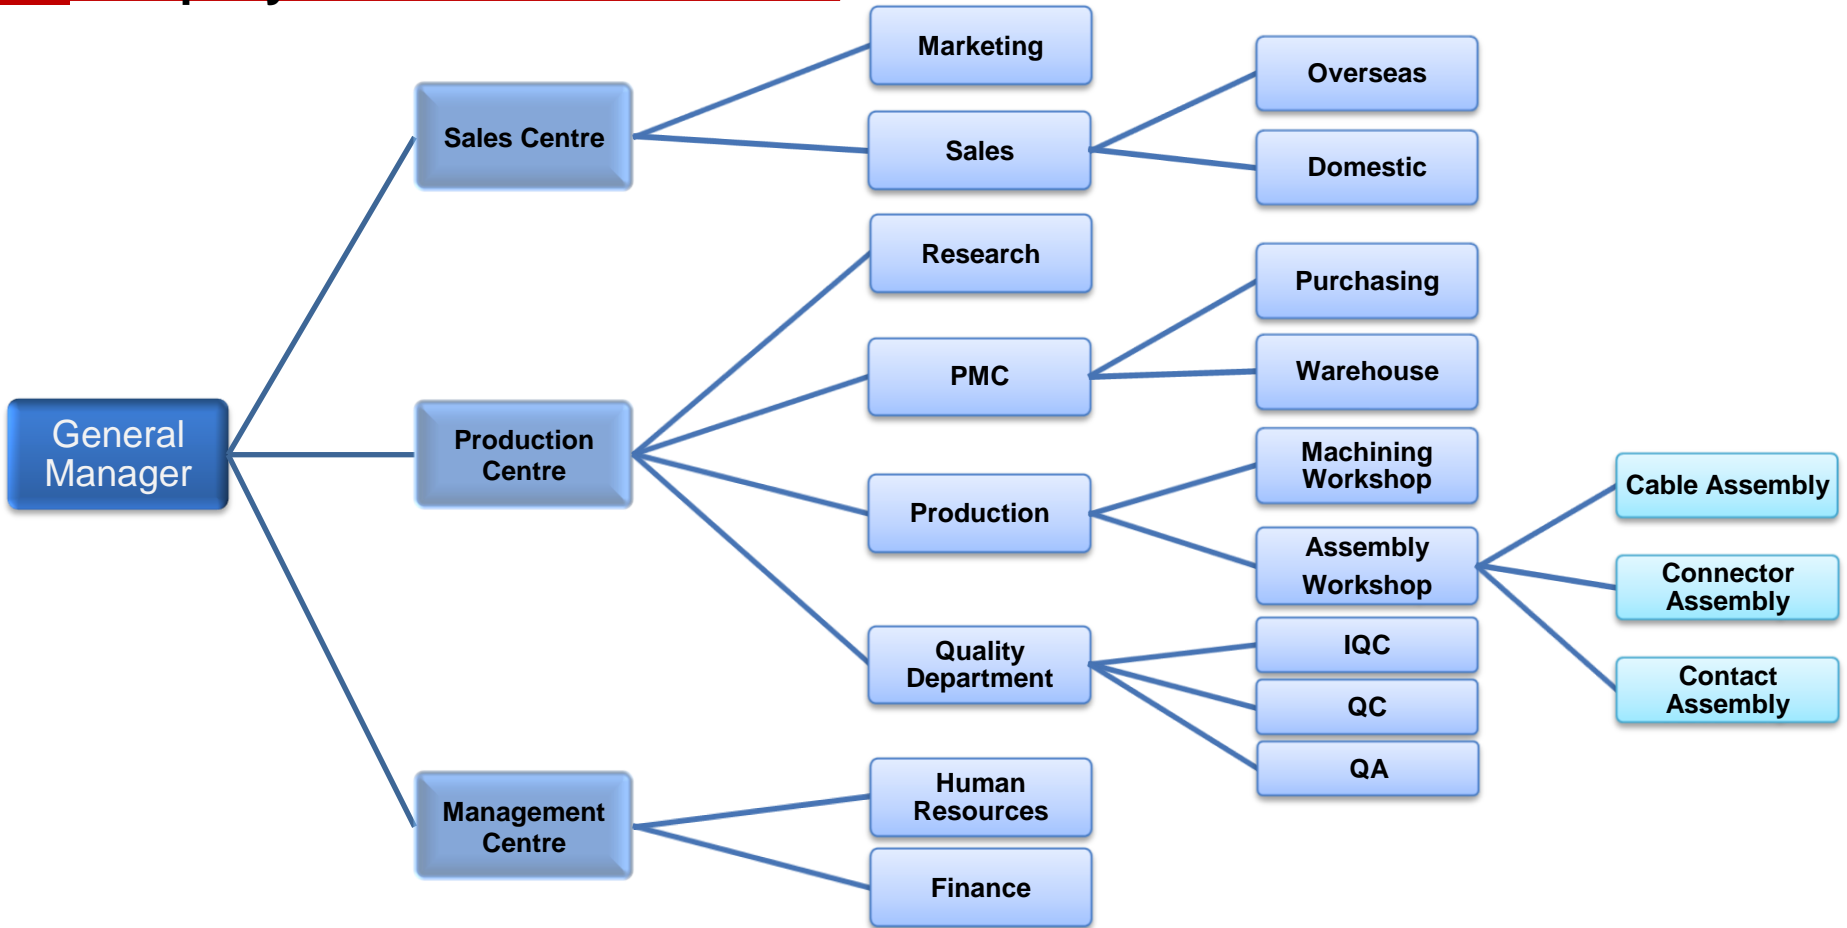

MOCO is committed to being one of the world's top manufacturers of push-pull circular connectors and cables. Established in 2012, we have been growing stably year by year. With the excellent management and great efforts made during the past few years, we have developed a lot of popular products such as precision circular push-pull connector, YLH bayonet connector, and high quality overmolding cable assemblies. And we are always ready for custom products. MOCO connectors are of stable performance and attractive appearance which are interchangeable with international brands. Our products are widely used in the fields of military, medical, measurement, audio-video, navigation, security, aviation, industrial control, automotive and power etc.

During the past few years, we have introduced several world class CNC machines to process all of our connector metal parts. Meanwhile, we have obtained UL, CE, RoHS and ISO9001 certificates. And we also obtained GJB 9001C-2017 which is a strict certificate of weapon equipment quality management system in China. We have multifunctional laboratory with testing equipment like cable testers, plugging force tester, salt spray chamber, voltage tester and wire bending test machine. Our experienced staff members are always available to discuss your requirements and ensure full customer satisfaction. Please contact us today.
