18<sup>th</sup> December 2018,

Dear Valued Customer,

At Pentair Clean Air Systems, we want to provide our customers with products that meet the highest quality standards. Recently, our EMP6 & BBD6 products haven't met these standards. After a period of investigation and deliberation, Pentair Clean Air Systems will be retiring the EMP6 & BBD6 range of products effective immediately. We will be fulfilling all existing orders and warranty claims.

A replacement range of products will be available in May 2019.

In the interim, the EMP7 emission monitors will still be available for sale for the next 6 months or while stocks last.

Yours Sincerely,

Lucas Sikking  
Global Product Manager

澳大利亚GOYEN公司的EMP6, BBD6与EMP7由于质量原因, 将停产。  
我们计划在2019年5月推出另一系列的替换产品。请留意我们的另行通知。
