- 2.It sources branded items;
- 3.It sees the world.

3D Sublimation Case

1.What is 3D Sublimation:

3D Sublimation is a dye sublimation printing process that is able to print custom images on to curve surface, without have any color limitation, you may apply any of the photos, artwork designs or commercial ideas to the blank products.

2.Why choose Sublimation products:

The image quality printed on sublimation product is exceptionally clear, bright and vivid which is unobtainable by any other means. All of your own digital portrait, company logo, factory picture or scenic can be printed onto the products, which makes your product look really different and special.
