| Remote control system | Optional configuration                 |
| Start type            | Electric                               |
| Pedrail length        | 800 mm                                 |
| Pedrail width         | 180 mm                                 |
| Work speed            | F1.8-6.1/B1.8-3.6 km/h                 |
| Ground distance       | 140 mm                                 |

## Gear Box Configuration Picture.

Configuration the gear box:  $(3+1)*2$  configuration the high and low speed) , Adapt to different road conditions for transportation operations.

## Engine Power System

Huasheng gas engine 10HP

Mitsubishi gasoline engine 10 HP

We can provide power matching standards according to customer needs.

## Optional attachment

Optional attachment: wood shredder and hedge trimmer for Vineyard.

## Pneumatic system

Configuration the **Air Pump, Storage Tank and Pneumatic Scissors**, client can configuration the Quick link shears to work.

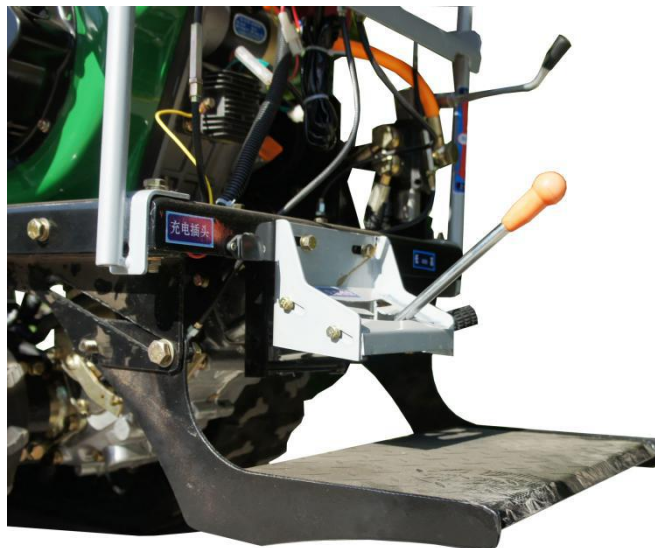

## Chassis Walking System

Configuration the top quality rubber tracks and the addition of steel wire and steel sheets in the track increase the service life and wear resistance of the track.

## Telescopic Pedal

Optional the Telescopic pedal according to customer need, it can reduce working strength, it's also can work in Swamp and Wetland.

Ultra-large size inlet and outlet

Super-large size inlet is convenient for small branches and leaves to enter.
