Recycled Tag Fastener 再生胶针

Made of recycled post-consumer polypropylene (rPP). The environmental benefit created by using "post consumer " waste from recycled disposable food container is substantial.

采用废旧食品包装盒回收再利用原料制成，实现资源的可再生循环，减少碳排放，降低碳足迹。

* 符合GRS回收认证标准。

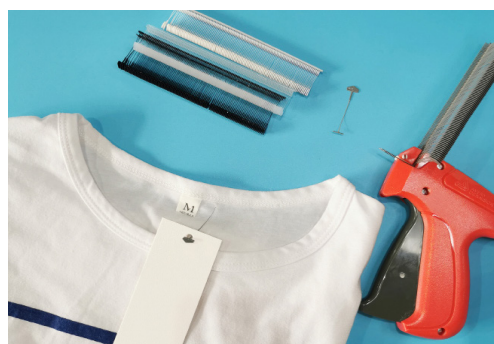

* Conform to GRS global recycled content standard.

Recycled String Lock ECO再生线扣

Perfectly produced, soft and elegant. No damage to the fabric and hands.

小而精致，材质柔软，做工精细。

Switching to GRS certified Recycled String Locks for tag/label attaching demonstrates brand innovation and environmental responsibility.

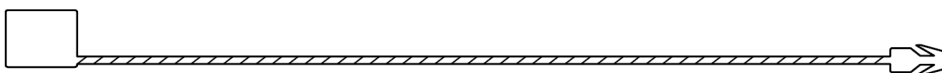

选用GRS全球回收认证再生类线扣，为环境保护尽一份力。

* 材质组成：再生涤纶或再生棉及再生 PP 或再生 PS。
Made of recycled polyester or recycled cotton ropes and recycled polypropylene(rPP) or recycled polystyrene(rPS).

The paper tag string lock, whose joint can be made of recycled materials and whose rope can be paper or kraft paper, retaining the function of convertional string locks, not only can reduce environmental footprint, but also can effectively demonstrate innovation and environmental responsibility of brands and customers.

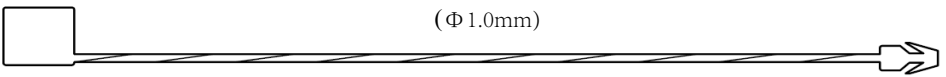

纸线扣，其连接部位可采用再生材质，结合纸纱编织绳或牛皮纸捻绳。保留传统线扣使用功能的同时，既能降低碳足迹，又能彰显品牌和消费者的创新和环保意识。

Available in 3 classes of paper strings for selection.
有三种类型的纸绳方案供选择。

I: Kraft Paper String Lock 牛皮纸线扣

Mainly made of kraft paper ropes, more natrual and environmental-friendly.
采用牛皮纸捻制绳，其外观自然朴实、环保属性突出。

With higher hardness, the texture of karft paper string embodies an rugged charm.
牛皮纸硬度稍高，呈现粗犷气质。

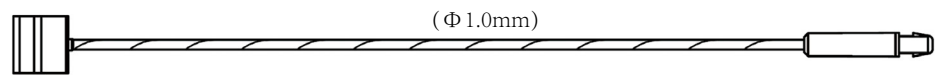

Item No.	Length(Inch)	Material	Colour
K_Paper_SLS-20	8"	Kraft Paper+ Recycled Polystyrene	brown/white
K_Paper_SLS-12	5"	Kraft Paper+ Recycled Polystyrene	brown/white

II: Paper String Lock 纸线扣

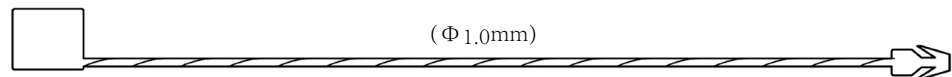

Maily made of convertional paper ropes, presenting a feeling of nature.
由纸纱编织的纸线扣，其外观显得简洁自然。

Compared with kraft paper strings, convertional paper strings is softer to touch.
相比牛皮纸线扣，其手感较为柔软。

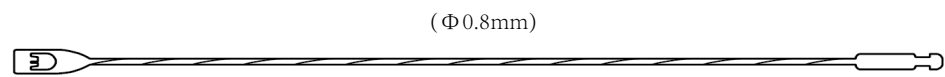

Available in multiple styles for selection.
款式多样。

Paper_SLR-12	5"	Paper+ Recycled Polypropylene	white

Item No.	Length(Inch)	Material	Colour
Paper_SLRM-20	8"	Paper+ Recycled Polypropylene	white/black
Paper_SLRM-12	5"	Paper+ Recycled Polypropylene	white/black

III: Fiber Paper String 纤维纸绳

Resembles cotton string, yet isn't!

Different from conventional paper strings, the newly-developed fiber paper strings, made of special paper ropes, whose main raw materials are extracted from natural plant fiber such as bamboo and wood, are an ideal alternative to "cotton string".

区别于传统纸纱编织绳，全新的第三类纤维纸绳，其原料采自竹、木等天然植物纤维，经先进工艺制成纸绳，是“棉绳”的极佳替代品。

Highlights:

With the help of advanced technology, the fiber paper strings, quite resembling cotton strings, combine the aesthetic appeal of cotton strings with the security of conventional tag strings. They're soft to touch and feature a natural luster.

Moreover, they can be waxed to make "paper wax strings", which offer more uniform luster and stronger eco-friendly appeal, when compared with conventional cotton wax strings.

产品亮点:

纤维纸绳既具备传统线绳的使用功能，更由于其外观与天然棉绳极其相似，而兼具了天然棉绳的美感——手感柔软、光泽自然。

亦可经上蜡处理制成“纸蜡绳”。与传统的“棉蜡绳”相比，其色泽更加均匀，环保属性更鲜明。

* Available in bleached white and natural white. Black and other colours can also be customized.

有漂白色和原白色（浅米黄）可选。黑色和其它颜色亦可定制。

* The diameter of ropes is available from 0.8mm to 2.0mm in thickness.

从0.8mm到2.0mm之间多种粗细直径可选。

Application of Fiber Paper String

纤维纸绳的应用

Application I:

Use waxed fiber paper rope and tie it directly to hang tags.

- Can be cut and divided into different size.
- Can be integrated with the entire set of tags to form a fully FSC product.

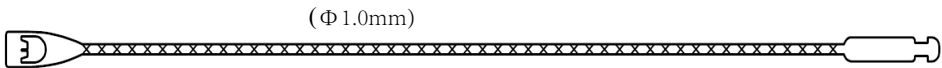

使用上蜡后的纸蜡绳，直接用于手工打结吊牌。

可分切成条；可与吊牌整体构成“全FSC制品”。

Application II:

Paired with recycled plastic material, also can be made into fiber paper string lock or brand seal.

亦可与再生塑料相结合，制成纤维纸线扣或品牌吊粒。

Item No.	Length(Inch)	Material	Colour
F_Paper_SLRM-20	8"	Fiber Paper+Wax+ Recycled Polypropylene	White
F_Paper_SLRM-12	5"	Fiber Paper+ Wax+Recycled Polypropylene	White

Biodegradable String Lock ECO降解线扣

Following the trend of the environment, the biodegradable string locks, whose joint can be made of natural resin extracted from plants such as corn starch, paired with natural cotton or paper ropes, can be degraded during composting.

适应环保潮流的ECO降解线扣系列，接合部使用可降解材料注塑（由玉米淀粉等植物提炼制成的天然树脂），搭配天然材质棉绳或纸绳，可堆肥降解。

Biodegradable String Lock

BIO_SLRM-C20BE	8"	Cotton+Biodegradable PLA	Beige

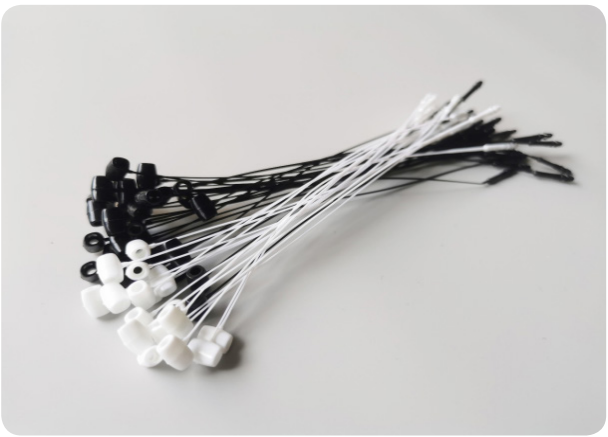

Recycled Loop Pin 再生穿针

Made of recycled post-consumer polypropylene (rPP).
The environmental benefit created by using "post consumer " waste from recycled disposable food container is substantial.

由废旧食品包装盒回收再利用制成。

Optimized design makes fastening more easily. Perfectly produced and no damage to the fabric and hands.

经优化设计，其接合部穿扣阻力更小，只须“轻轻一插”即可，减轻工人手指作业的疼痛感。
制品做工精细，穿结后头部不露出，不易刮丝。

Recycled Loop Pin

Item No.	Discription	Overall Length	Material	Colour	Box Qty.	Carton Qty.
RLP3	3"(85mm) recycled loop rPP	85mm	Recycled PP	Natural Black	5,000 pcs	50,000 pcs

RLP7	7"(175mm) recycled loop rPP	175mm				
RLP9	9"(220mm) recycled loop rPP	220mm				

Recycled String Loop& Recycled Loop Tach

ECO枪用再生线扣和再生索扣

(Exclusive for use with Fas Tagging Tool)

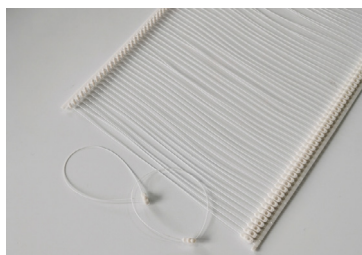

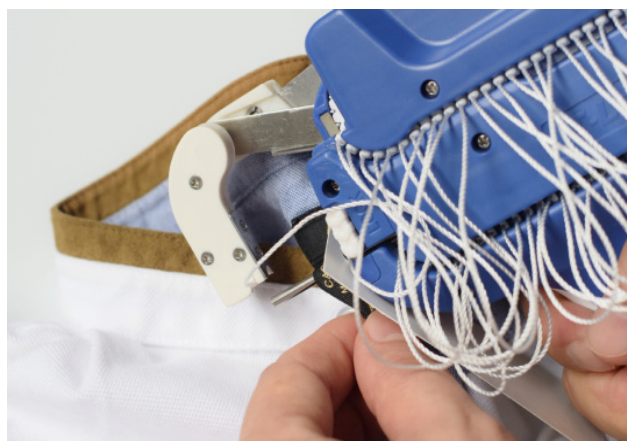

One touch fastening! Time and cost saving!

Just lightly holding the trigger of fas tagging tool, you can easily attach the loop fastened label/tag to the merchandise.

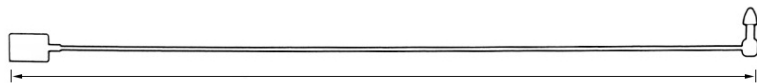

免手穿。轻扣专用吊牌枪的“扳机”，即可快速完成吊牌的连接安装。

Available in recycled string loop and recycled loop tach.

专用排扣有再生线扣和 rPP 再生索扣两类可选。
