The paper tag string lock, whose joint can be made of recycled materials and whose rope can be paper or kraft paper, retaining the function of conventional string locks, not only can reduce environmental footprint, but also can effectively demonstrate innovation and environmental responsibility of brands and customers.

纸线扣，其连接部位可采用再生材质，结合纸纱编织绳或牛皮纸捻绳。保留传统线扣使用功能的同时，既能降低碳足迹，又能彰显品牌和消费者的创新和环保意识。

Available in 3 classes of paper strings for selection.

有三种类型的纸绳方案供选择。

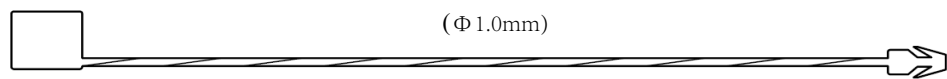

I: Kraft Paper String Lock 牛皮纸线扣

Mainly made of kraft paper ropes, more natural and environmental-friendly.

采用牛皮纸捻制绳，其外观自然朴实、环保属性突出。

With higher hardness, the texture of karft paper string embodies an rugged charm.

牛皮纸硬度稍高，呈现粗犷气质。

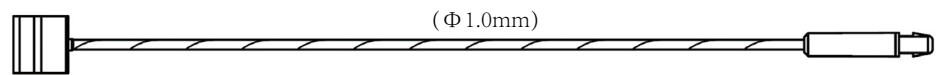

Item No.	Length(Inch)	Material	Colour
K_Paper_SLS-20	8"	Kraft Paper+ Recycled Polystyrene	brown/white
K_Paper_SLS-12	5"	Kraft Paper+ Recycled Polystyrene	brown/white

II: Paper String Lock 纸线扣

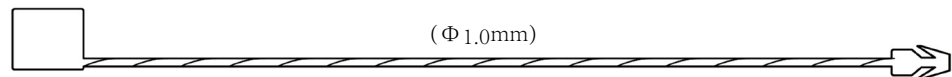

Maily made of convertional paper ropes, presenting a feeling of nature.
由纸纱编织的纸线扣，其外观显得简洁自然。

Compared with kraft paper strings, convertional paper strings is softer to touch.
相比牛皮纸线扣，其手感较为柔软。

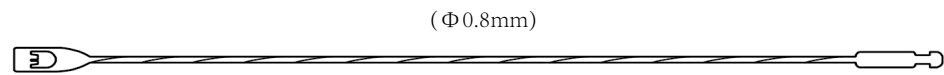

Available in multiple styles for selection.
款式多样。

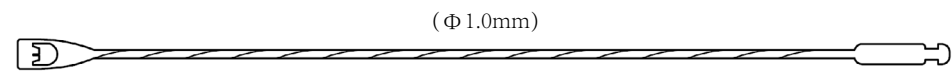

Item No.	Length(Inch)	Material	Colour
Paper_SLS-20	8"	Paper+ Recycled Polystyrene	white
Paper_SLS-12	5"	Paper+ Recycled Polystyrene	white

Item No.	Length(Inch)	Material	Colour
Paper_SLF-20	8"	Paper+ Recycled Polystyrene	white
Paper_SLF-12	5"	Paper+ Recycled Polystyrene	white

Item No.	Length(Inch)	Material	Colour
Paper_SLR-20	8"	Paper+ Recycled Polypropylene	white
Paper_SLR-12	5"	Paper+ Recycled Polypropylene	white

Item No.	Length(Inch)	Material	Colour
Paper_SLRM-20	8"	Paper+ Recycled Polypropylene	white/black
Paper_SLRM-12	5"	Paper+ Recycled Polypropylene	white/black

III: Fiber Paper String 纤维纸绳

Resembles cotton string, yet isn't!

Different from conventional paper strings, the newly-developed fiber paper strings, made of special paper ropes, whose main raw materials are extracted from natural plant fiber such as bamboo and wood, are an ideal alternative to "cotton string".

区别于传统纸纱编织绳，全新的第三类纤维纸绳，其原料采自竹、木等天然植物纤维，经先进工艺制成纸绳，是“棉绳”的极佳替代品。

Highlights:

With the help of advanced technology, the fiber paper strings, quite resembling cotton strings, combine the aesthetic appeal of cotton strings with the security of conventional tag strings. They're soft to touch and feature a natural luster.

Moreover, they can be waxed to make "paper wax strings", which offer more uniform luster and stronger eco-friendly appeal, when compared with conventional cotton wax strings.

产品亮点:

纤维纸绳既具备传统线绳的使用功能，更由于其外观与天然棉绳极其相似，而兼具了天然棉绳的美感——手感柔软、光泽自然。

亦可经上蜡处理制成“纸蜡绳”。与传统的“棉蜡绳”相比，其色泽更加均匀，环保属性更鲜明。

* Available in bleached white and natural white. Black and other colours can also be customized.

有漂白色和原白色（浅米黄）可选。黑色和其它颜色亦可定制。

* The diameter of ropes is available from 0.8mm to 2.0mm in thickness.

从0.8mm到2.0mm之间多种粗细直径可选。

Application of Fiber Paper String

纤维纸绳的应用

Application I:

Use waxed fiber paper rope and tie it directly to hang tags.

- Can be cut and divided into different size.
- Can be integrated with the entire set of tags to form a fully FSC product.

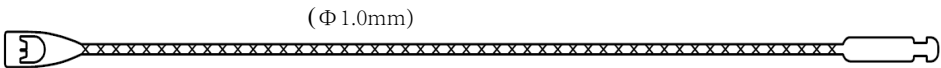

使用上蜡后的纸蜡绳，直接用于手工打结吊牌。

可分切成条；可与吊牌整体构成“全FSC制品”。

Application II:

Paired with recycled plastic material, also can be made into fiber paper string lock or brand seal.

亦可与再生塑料相结合，制成纤维纸线扣或品牌吊粒。

Item No.	Length(Inch)	Material	Colour
F_Paper_SLRM-20	8"	Fiber Paper+Wax+ Recycled Polypropylene	White
F_Paper_SLRM-12	5"	Fiber Paper+ Wax+Recycled Polypropylene	White
