

SHIJIAZHUANG BOSAI BEARING CO.,LTD

Our factory is located in the hometown of bearings, LinXi county, Xingtai City, HeBei Province, China. We are proud to introduce our high-quality pillow block bearings. These bearings are designed to handle a wide range of loads and provide excellent performance in harsh environments. Our pillow block bearings are ideal for applications such as construction equipment, mining machinery, agricultural machinery, and wind power generators.

Our bearings feature a unique design that allows for self-alignment, which helps to reduce wear and tear on the bearing and improve overall performance. The bearings are made from high-quality materials, including chrome steel, and are subjected to rigorous testing to ensure durability and longevity. In addition to their exceptional performance, our spherical bearings are also easy to install and maintain. They are available in a variety of sizes and configurations to meet the needs of any application. Our team of experts is always available to provide guidance and support to help you find the right bearing for your specific needs.

We mainly produce pillow block bearings with different kind of materials, such as:
 Bearing material: chrome steel, zinc alloy and stainless steel
 Housing Material: Cast iron (HT200), Plastic, Ductile Iron and stainless steel.

The production environmental conditions are tidy and clean being controlled and suitable for the operation. We can provide a series of products (UCPseries,UCF series,UC series,UCPH200 Series Pedestal Pillow Block Unit and so on)and services from mechanical design, production to package. Also ODM and OEM services are supplied

PILLOW BLOCK BEARING

UCP200, UCF200,UCFL200,UCT200,UCPA200, UCFA200,UCFB200 SERIES...
 UC200, UC300,SA200, SB200,UJL200, UCX200 SERIES...
 SUPPLY ZV1, ZV2 QUALITY
 AND DIFFERENT HOUSING TYPE

AGRICULTURAL BEARING
