What product and service of BRILLIATECH?

Brilliatech do design, product engineering development and manufactory for car care and washing items;

About Clay Pad:

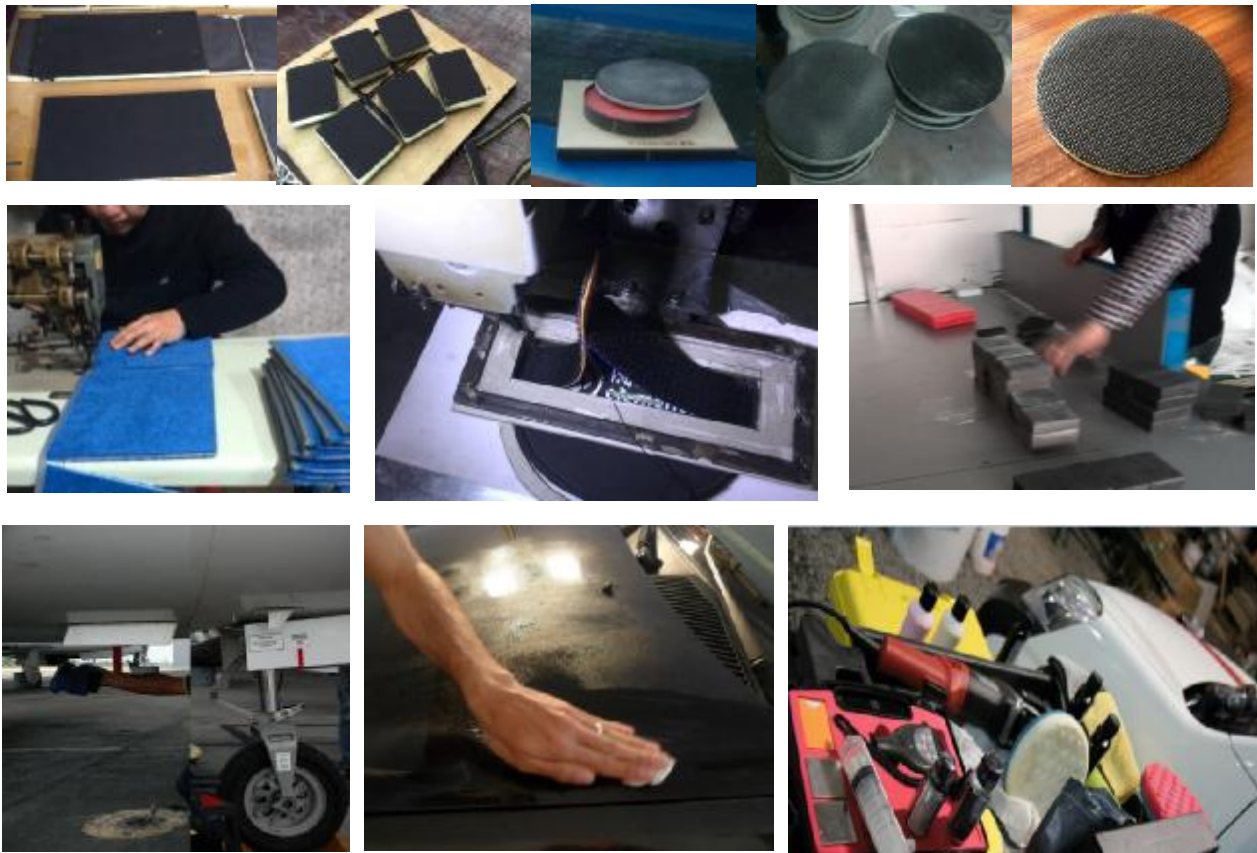

We have design about **3 grade** for different users; due to different area and different weather, we have to design different grades to meet customer request:

What different of fine, medium, heavy clay pad;

Fine clay pad: it is a real clay on the pad; it good for car washing and good for cutting power for washing car body; but it is very soft of the clay bar on the pad; can not use more cars;

Medium and heavy clay pad: medium and heavy pad are not clay on the pad; a kind of rubber on the pad; it is soft and spring on the pad; heavy pad is more cutting power and wide environment for using;

Brilliatech have our laboratory and application testing workshop for base testing for temperature and humidity and application testing;

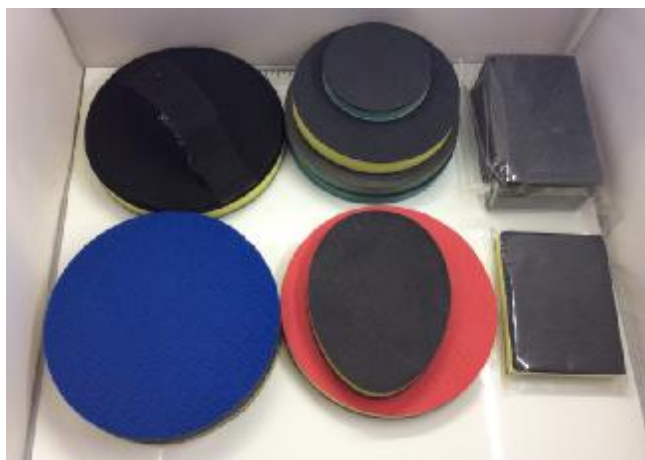

BT-6012

BT-6012 clay pad: about 3 grade, BT-6012F fine, BT-6012M medium, and BT-6012H heavy; General color of the clay: it is black almost close to grey; (light back); We also support to change the sponge and clay to different color or grade;

About size of the clay pad: 170mm; 160mm; 150mm 130mm 125mm 100mm 80mm;
We also support you to do any size according you request.
