What product and service of BRILLIATECH?

Brilliatech do design, product engineering development and manufactory for car care and washing items;

About Clay Towel and Mitt:

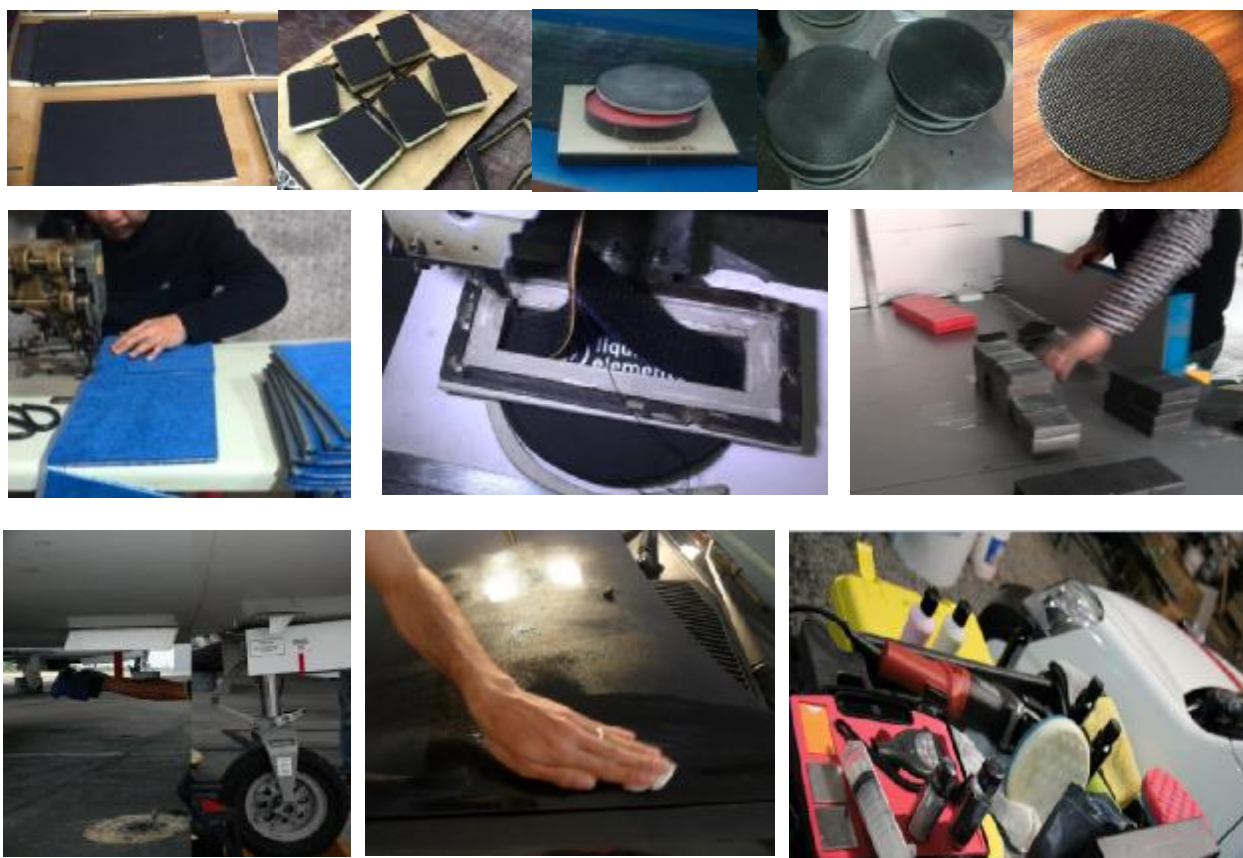

We have design about **3 grade** for different users; due to different area and different environment, we have to design different grades to meet customer request:

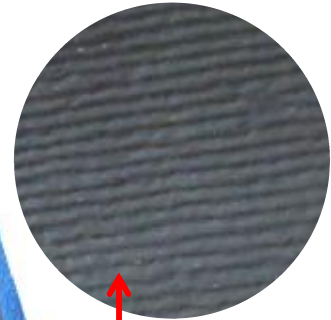

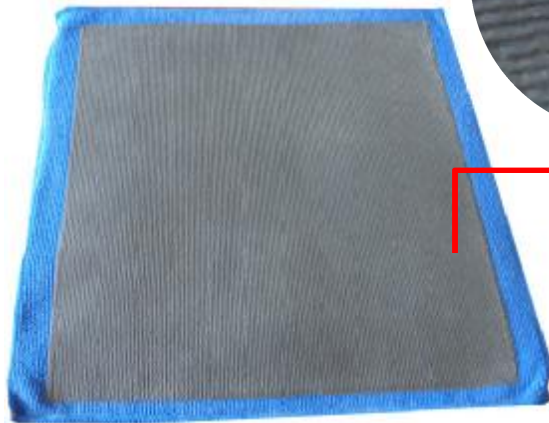

What different of fine, medium, heavy clay pad;

Fine clay pad: it is a real clay on the pad; it good for car washing and good for cutting power for washing car body; but it is very soft of the clay bar on the pad; can not use more cars;

Medium and heavy clay pad: medium and heavy pad are not clay on the pad; a kind of rubber on the pad; it is soft and spring on the pad; heavy pad is more cutting power and wide environment for using;

Brilliatech have our laboratory and application testing workshop for base testing for temperature and humidity and application testing;
