- 4.When move the clay sponge on the car body,please keep spary water and check the surface of paint.if the surface smooth and shine it is ok.
- 5.The clay sponge can use for car paints and glass and reuseable.

Magic Clay Block

The clay block removal process is so quick and easy, it's as simple as washing or spray waxing your way to a perfectly clean, smooth and restored paint surface, ready for polishing and waxing. This patented, rubber polymer technology quickly shears off and removes both surface and embedded contaminants including paint overspray, water spots, fresh tree sap, rail dust, bird droppings, light oxidation and brake dust. Left alone, these particles can quickly cause molecular breakdown of your paint, leaving the finish dull and vulnerable to further deterioration.
