

The new upgrade

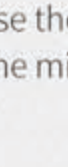

Stable and durable Crab clip

new look · clip

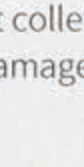

Strong grip

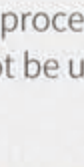

SUPERIOR QUALITY

Comfortable

Strong clamping force

High firmness

One-piece process

High quality hardware

Quality Assurance

The old clip problem is bothering you?

Use the left and right collet assembly process,
if the middle part is damaged, it will not be used.

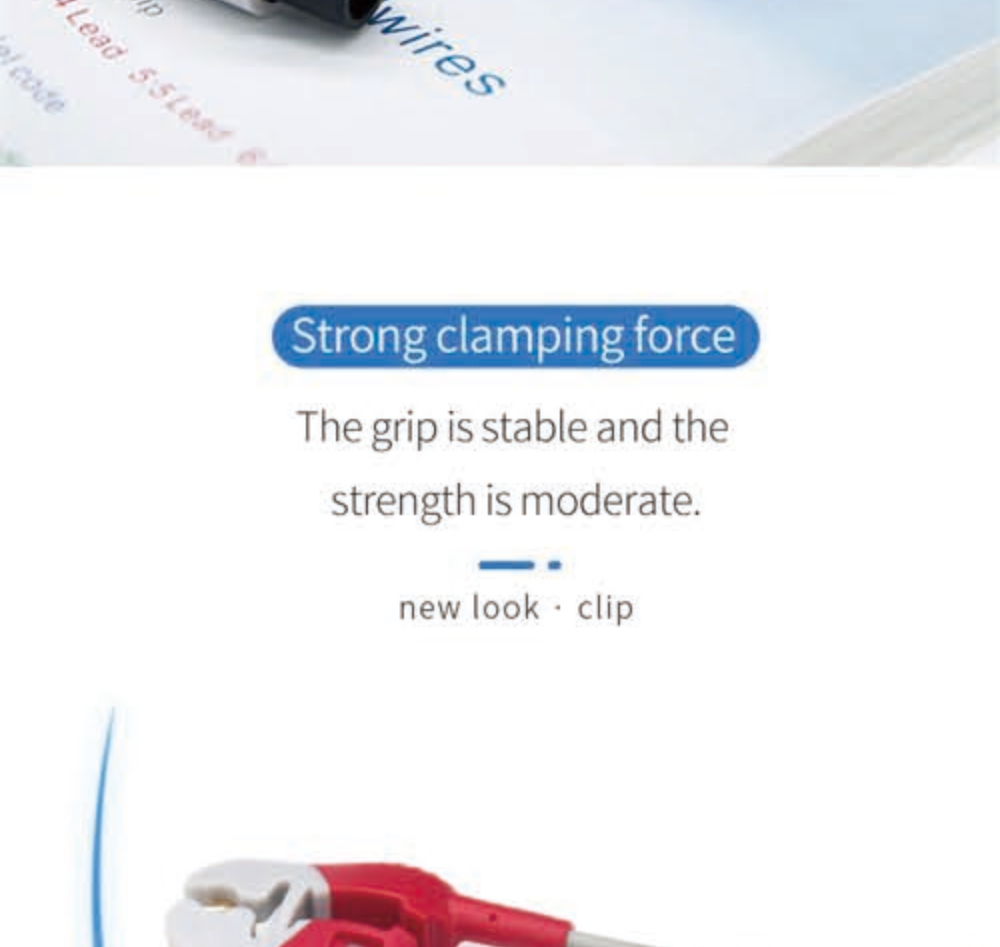

- ✗ The kneading part has three corners and the hand is uncomfortable when kneaded by hand.
- ✗ The strength is weak, there is a certain probability that the activity will fall off.
- ✗ No printing is not easy to identify

Comfortable

Flat at the jaws, rounded corners

Comfortable when gripped by hand, more ergonomic

new look · clip
